AUTOIMMUNITY, PART D
Autoimmune Disease, Annuus Mirabilis

Editors
YEHUDA SHOENFELD AND M. ERIC GERSHWIN

This volume is the result of a meeting entitled 5th International Congress on Autoimmunity, held on November 29–December 3, 2006, in Sorrento, Italy. Parts A, B, and C can be found in Volumes 1109, 1110, and 1107, respectively.

CONTENTS

Foreword, By YEHUDA SHOENFELD AND M. ERIC GERSHWIN ........................................... xv

Part I. Systemic Lupus Erythematosus

Glomerular Targets for Autoantibodies in Lupus Nephritis: An Apoptotic Origin. By SVETLANA N. ZYKOVA, NATAYA E. SEREIHKINA, AND OLE PETTER REKVIG .......................................................... 1

Type I Interferons Inhibition of Inflammatory T Helper Cell Responses in Systemic Lupus Erythematosus. By ALYSON J. MANGMI, ROBERT LAVATIS, AND JEAN MAGUIRE VAN SEVENTE .................................................. 11

Vascular Elasticity of Systemic Lupus Erythematosus Patients Is Associated with Steroids and Hydroxychloroquine Treatment. By AMIR TANAY, EYAL LEIBOVITZ, ANGELA FRAYMAN, REUVIN ZIMICHMAN, AND DIVI GAVISH .......................................................... 24

Sun-Induced Life-Threatening Lupus Nephritis. By ENNO SCHMIDT, HANS-PIETER TONY, EVA-HITTINA BRÖCKER, AND CHRISTIAN KNIEITZ ....... 35
Blood Concentrations of Hydroxychloroquine and Its Desethyl Derivative Correlate Negatively with the Percentage of CD45RO+ Cells among CD4+ Lymphocytes in Hydroxychloroquine-Treated Lupus Patients. By Laurent Saulnier, Bénédicte Puissant, Pascal Méliani, Jean Olivier Canet, Sylvie Sanin, D. Adoué, B. Fourrier, Philippe Arel, Jean-Louis Montastruc, Maryse Lapiyre-Mestere, Jacques Pourrat, and Antoine Blancher ........................................ 41

Advances in Lupus and Sjögren’s Syndrome: A Tribute to Josep Font. By Manuel Ramon-Casas and Munther A. Khamashta .................................................. 51

Regulatory T Cells and Systemic Lupus Erythematosus. By Véronique Parfait, Hélène Chiplot, Sylviane Muller, and Fanny Monneaux ........................................ 64

Occurrence of Malignancies in Hungarian Patients with Systemic Lupus Erythematosus: Results from a Single Center. By Tünde Taré, Balázs Györfy, Eva Székelyné, Haruti Pal Bhatta, Magda Zehner, Gyula Szegedi, and Emese Kiss ............................... 76

Reduced Paraoxonase1 Activity Is a Risk for Atherosclerosis in Patients with Systemic Lupus Erythematosus. By Emese Kiss, Ilidró Seres, Tünde Taré, Zsolt Koczán, Gyula Szegedi, and György Paragh ....... 83

Annexin A5 as a Novel Player in Prevention of Atherothrombosis in SLE and in the General Population. By Anna Cederholm and Johan Fronticàrd ........................................... 96

A Central Role of Nucleosomes in Lupus Nephritis. By Kristin A. Fenton and Ole Putter Rebek ....................................................... 104

DNA Methylation and Systemic Lupus Erythematosus. By Iva Balada, Josep Oriol-Ros, and Michiel Vilardell-Tarrés ........................................ 127

Drug-Induced Lupus. By Andrea T. Borchers, Carl L. Keen, and M. Eric Gershwin ................................................. 166

Pediatric Systemic Lupus Erythematosus with C1q Deficiency. By Maryam Kallel-Sellami, Lilia Baili-Klila, Yousr Zerzeri, Lilia Laadhari, Jacques Blocal, Mohamed Slim Abdelmoula, Mondher Zitouni, Véronique Fremaux-Baccini, Marie France Ben Driss, and Sondes Makni ........................................... 193

Highly Specific Novel Method for Isolation and Purification of Lupus Anti-DNA Antibody via Oligo-(dT) Magnetic Beads. By Mirjana Pavlovic, Ran Chen, Anna M. Kats, Michelle F. Cavallo, Seth Saccocia, Patricia Keating and James X. Hartmann ........................................... 203

Prolactin Levels Are Associated with Lupus Activity, Lupus Anticoagulant, and Poor Outcome in Pregnancy. By Luis J. Jara, Heidi Pacheco-Reyes, Gabriela Medina, Ulises Angelés, Policia Cruz-Cruz, and Miguel A. Saaavedra ........................................... 218

Part II. Scleroderma

Unstabilized DNA Breaks in Lymphocytes of Patients with Different Subsets of Systemic Sclerosis. By Francesca Majone, Franco Cozzi, Marta Tonello, Silvia Oliieri, Anna Montalbani, Maria Favaro, Serina Viscini, Roberto Luisedo, and Amelia Ruffatti ........................................... 240

Scleroderma Renal Crisis, Still a Life-Threatening Complication. By Luis Tixeira, Alfred Mair, Alice Berezine, Laure-Hélène Noël, Loïc Guillemin, and Luc Mouton ........................................... 249

Early Atherosclerosis and Autoantibodies to Heat-Shock Proteins and Oxidized LDL in Systemic Sclerosis. By Yadv Sherfar, Mauro Matteucci Cericci, Francesca Bartoli, Jelena Blagojevic, Maria Letizia Conforti, Boris Gilburd, Michael Ehrlich, and Yehuda Shoenfeld ........................................... 259

Systemic Sclerosis-Associated Myopathy. By Brigitte Ranque, François-Jérôme Authier, Alice Berezine, Loïc Guillemin, and Luc Mouton ........................................... 268
Flow-Mediated Vasodilation and Carotid Intima-Media Thickness in Systemic Sclerosis. By Francesca Bartoli, Jeana Blagoevic, Marzia Bacchetti, Ginevra Fiori, Alessio Tempestini, Maria Letizia Conforti, Serena Guiducci, Irene Minati, Mauro Di Chiocco, Angela Del Rosso, Federico Perfetto, Sergio Castellani, Alberto Picone, and Marco Mauceri Cernichiari .................................................. 283

Exercise Doppler Echocardiography Identifies Preclinical Asymptomatic Pulmonary Hypertension in Systemic Sclerosis. By Alberto Picone, Fabio Mori, Francesco Pieri, Andrea Oddo, Gianna Galeoto, Ginevra Fiori, Angela Del Rosso, Federico Perfetto, Aureliano Becucci, Riccardo Livi, Alessio Tempestini, Chiara Benvenuti, Leonardo Gramigna, Roberto Ponzoni, Sirolo Genovese, Martina Minelli, Marina Cincelli, Serena Guiducci, Chiara Arcangeli, Maria Letizia Conforti, Pasquale Bernarini, and Marco Mauceri Cernichiari .......................................................... 291

Thyroid Dysfunction in Women with Systemic Sclerosis. By Bianca Marasini, Pier Alda Ferrari, Nadia Scolaro, and Carlo Selmi ................................................. 305

Part III. Rheumatoid Arthritis

The Immunology of Rheumatoid Arthritis. By Rossana Serrano, Manuela Di Franco, Antonio Spadaro, and Guido Valesini .......... 312

Citralization by Pepthylarginine Deiminase in Rheumatoid Arthritis. By Akari Suzuki, Ryo Yamada, and Kazuhiko Yamamoto ........ 323

Regulation of Cytokine-Induced TGF-beta Expression in Rheumatoid Synovial Fibroblasts. By Johanna Venker, Elisabeth Brouwer, Reinhard Buc, Marcel D. Posthumus, Berber Doornbos-Van Der Meer, Chien G.M. Kallenberg, and Pieter C. Limburg ............................................ 340

Increased Production of the Soluble Tumor-Associated Antigens CA19-9, CA125, and CA15-3 in Rheumatoid Arthritis: Potential Adhesion Molecules in Synovial Inflammation? By Eva Szekanecz, Zsuzsa Sandor, Peter Antal-Szalmas, Lilla Soos, Gabriella Lakos, Timi Benewey, Agnes Szentpely, Emik Simkovics, Janos Szanto, Emese Kiss, Agida E. Koch, and Zoltan Szekanecz ................. 359

Precocious Atherosclerosis in Rheumatoid Arthritis: Role of Traditional and Disease-Related Cardiovascular Risk Factors. By Roberto Gerli, Yann Shifer, Jeana Bartoloni Becchi, Gaetano Vaglio, Sheila Moscatelli, and Yehuda Shoenfeld .................. 372

A New Target for Autoantibodies in Patients with Rheumatoid Arthritis. By Magda Robert-Pactot, Agnes Desbais, Annick Moreira, Michel Becchi, Jacques Teuli, Michel Bonnin, Tarik Atsisselli, Jacques Bienvenu, and Nicole Fabien .......... 382
Preclinical Impairment of Coronary Flow Reserve in Patients with Rheumatoid Arthritis. By Fabiola Atzeni, Piercarlo Sarzi-Puttini, Giuseppe De Blasio, Luigi Del夙n, Livio Tomasoni, and Mauro Torri. 392

Cartilage Oligomeric Matrix Protein Level in Rheumatic Diseases: Potential Use as a Marker for Measuring Articular Cartilage Damage and/or the Therapeutic Efficacy of Treatments. By Gabriella Morozzi, Marta Fabbioni, Francesca Bellissai, Gabriella Pucci, and Mauro Galfazzi. 398

Heat-Shock Protein 65 Autoantibodies Are Differently Associated with Early Atherosclerosis in Rheumatoid Arthritis and in Healthy Subjects. By Yanni Sideris, Roberto Girilli, Elena Bartoloni Botti, Boris Gilburd, Gaetano Vaudo, Onella Bestoni, and Yehuda Shoenfeld. 408

Part IV. Sjögren’s Syndrome

Antibodies against Alpha-Fodrin Are Associated with Sicca Syndrome in the General Population. By Torsten Witte, Torsten Matthias, Janine Bierwirth, and Reinhold E. Schmidt. 414

Autoantibodies from Sjögren’s Syndrome Trigger Apoptosis in Salivary Gland Cell Line. By Margherita Sisto, Sabrina Lisi, Dario LoRusso, Massimo D’Amore, Pasquale Scaglione, and Vincenzo Midolo. 418

The Influence of Sex Steroids on Sjögren’s Syndrome. By Paulina Porora, Mikael Jain, Lisa Virki, Prashet Prasad, and Yrjo T. Kontinen. 426

Sjögren’s Syndrome—A Plethora of Clinical and Immunological Phenotypes with a Complex Genetic Background. By Roland Jonsson, Anne Isine Bolstad, Karl A. Brokstad, and Johan G. Brun. 433

Part V. Antiphospholipid Antibodies

Catastrophic Antiphospholipid Syndrome: Lessons from the “CAPS Registry”—A Tribute to the Late Joseph Font. By Ricardo Cervera, Stefania Buatti, Gerard Espinosa, José A. Gómez-Puerta, Manuel Ramón-Casas, Yehuda Shoenfeld, Jean-Claude Piette, and Ronald A. Asherson. 448

Antiphospholipid Antibodies in Patients with Coronary Artery Disease: New Cardiac Risk Factors? By Tom P. Greco, Ann Marie Conti-Kelly, Eiji Matsuura, Tom Grevo Jr., Ken J. Duhr, Gregory Svanas, Robin Doyle, and Luis R. Lopez. 466

Cross-Reactive Epitopes on β2-Glycoprotein-I and Saccharomyces cerevisiae in Patients with the Antiphospholipid Syndrome. By I. KRAVICH, M. BLANK, R. CORVEIRA, J. FONT, T. MATTHIAS, S. PFEIFER, I. WIFS, A. FRASER, AND Y. SHOENFELD .................................................. 481

Atherogenic Antiphospholipid Antibodies in Antiphospholipid Syndrome. By KAZUKO KOBAYASHI, LUIS R. LOPEZ, AND EJJI MATSUMURA ............... 489

A Novel Overlap Syndrome: Systemic Sclerosis Associated with Antiphospholipid Syndrome—a Case Series. By GISIELLE ZANDMAN-GODDARD, NURIT TWELZER-ZAKS, TAMAR SHEALEV, YAIR LEVY, MICHAEL EHRENFELD, AND PNIHA LANGEVITZ .................. 497

Pregnancies Complicated with Antiphospholipid Syndrome: The Pathogenic Mechanism of Antiphospholipid Antibodies: A Review of the Literature. By NICOLETTO DI SIMONE, MURONI PIETRIU DI, VARIO MARCO, DI NICOLAIO FIORELLA, D’IPOLITO SILVIA, D’ALESSIO MARIA CLARA, AND CARUSO ALESSANDRO .................................................. 505

Peripheral Vascular Occlusions Leading to Gangrene and Amputations in Antiphospholipid Antibody Positive Patients. By RONALD A. ASHERSON, RICARD CERVIERA, AND YEHUDA SHOENFELD .................................................. 515

Uterine Artery Velocity Waveforms as Predictors of Pregnancy Outcome in Patients with Antiphospholipid Syndrome: A Review. By SARA DE CAROLIS, ANGELA BOTTI, SERAFINA GAROFALO, SERGIO PERRAZZANI, CARMELINDA MARTINO, GABRIELLA FATIGANTE, LEONARDO CAPODIE, AND ALESSANDRO CARUSO .................................................. 530

C5a Receptor-Deficient Mice Are Protected from Thrombophilia and Endothelial Cell Activation Induced by Some Antiphospholipid Antibodies. By ZURINA ROMAY-PUNIAEA, XIANG RUI LIU X, GUADALUP MORAL-IZANO, ELIZABETH PATRADO DE MARTINEZ, AND SILVIA S. PIRANGERI .................................................. 554

Part VI. Infections and Autoantibodies

Are Antiphospholipid Antibodies an Essential Requirement for an Effective Immune Response to Infections? By PHILIPP VON LANDENBERG, YVONNE DÖRING, SUSANNE MODROW, AND KARL J. LACKNER .................................................. 578

Autoantibodies in Nonautoimmune Individuals during Infections. By TATIANA BERLIN, GISIELLE ZANDMAN-GODDARD, MURI BLANK, TORSTEN MATTHIAS, SASCHA PFEIFER, INGRID WEIS, JULIA ZUHLE, SHARI SINGH, RONALD ASHERSON, ABIGAIL FRASER, BORIS GILBURD, TAI SAPIR, YAIR LEVY, JAAK SIUKA, BLAI ROZMAN, TANIA KUENER, AND YEHUDA SHOENFELD .................................................. 584

Chronic Infections and Atherosclerosis. By KIYOSHI AYAMA, KENJI YOKOTA, KAZUKO KOBAYASHI, YEHIDA SHOENFELD, ELI MATSUMURA, AND KENJI OGUMA .................................................. 594
