## for Nursing Care

**EIGHTH EDITION**

### **RICHARD A. LEHNE, PhD**

*formerly*

Lecturer, University of Arizona College of Nursing  
Lecturer, University of Virginia School of Nursing  
Research Assistant Professor, Department of Pharmacology  
University of Virginia School of Medicine  
Charlottesville, Virginia

#### **IN CONSULTATION WITH**

#### **Linda A. Moore, EdD, RN, APRN, BC (GNP/ANP), MSCN**

Associate Professor of Nursing  
Adult Health Nursing  
School of Nursing  
University of North Carolina  
at Charlotte;  
Nurse Practitioner  
Multiple Sclerosis Center  
Carolinas HealthCare Systems  
Charlotte, North Carolina

#### **Leanna J. Crosby, DNSc, G/ANP-C**

Nurse Practitioner in Primary Care  
Southern Arizona Veterans  
Administration Healthcare System;  
Adjunct Associate Professor  
College of Nursing  
University of Arizona  
Tucson, Arizona

#### **Diane B. Hamilton, PhD, RN**

Professor Emerita  
School of Nursing  
Western Michigan University  
Kalamazoo, Michigan

758112

Universitatea de Stat de  
Medicină și Farmacie  
«Nicolae Testemițanu»  
Biblioteca Științifică Medicală

SL3

## I Introduction

1. Orientation to Pharmacology 1
2. Application of Pharmacology in Nursing Practice 5
3. Drug Regulation, Development, Names, and Information 15

## II Basic Principles of Pharmacology

4. Pharmacokinetics 26
5. Pharmacodynamics 48
6. Drug Interactions 59
7. Adverse Drug Reactions and Medication Errors 67
8. Individual Variation in Drug Responses 79

## III Drug Therapy Across the Life Span

9. Drug Therapy During Pregnancy and Breast-Feeding 88
10. Drug Therapy in Pediatric Patients 95
11. Drug Therapy in Geriatric Patients 99

## IV Peripheral Nervous System Drugs

### Introduction

12. Basic Principles of Neuropharmacology 103
13. Physiology of the Peripheral Nervous System 109

### Cholinergic Drugs

14. Muscarinic Agonists and Antagonists 124
15. Cholinesterase Inhibitors and Their Use in Myasthenia Gravis 135
16. Drugs That Block Nicotinic Cholinergic Transmission: Neuromuscular Blocking Agents and Ganglionic Blocking Agents 143

### Adrenergic Drugs

17. Adrenergic Agonists 152
18. Adrenergic Antagonists 165
19. Indirect-Acting Antiadrenergic Agents 177

## V Central Nervous System Drugs

### Introduction

20. Introduction to Central Nervous System Pharmacology 182

### Drugs for Neurodegenerative Disorders

21. Drugs for Parkinson's Disease 185
22. Alzheimer's Disease 201
23. Drugs for Multiple Sclerosis 211

### Neurologic Drugs

24. Drugs for Epilepsy 227
25. Drugs for Muscle Spasm and Spasticity 252

### Drugs for Pain

26. Local Anesthetics 257
27. General Anesthetics 264
28. Opioid (Narcotic) Analgesics, Opioid Antagonists, and Nonopioid Centrally Acting Analgesics 274

29. Pain Management in Patients with Cancer 300
30. Drugs for Headache 319

### Psychotherapeutic Drugs

31. Antipsychotic Agents and Their Use in Schizophrenia 332
32. Antidepressants 354
33. Drugs for Bipolar Disorder 380
34. Sedative-Hypnotic Drugs 390
35. Management of Anxiety Disorders 406
36. Central Nervous System Stimulants and Attention-Deficit/Hyperactivity Disorder 416

### Drug Abuse

37. Drug Abuse I: Basic Considerations 430
38. Drug Abuse II: Alcohol 438
39. Drug Abuse III: Nicotine and Smoking 450
40. Drug Abuse IV: Major Drugs of Abuse Other Than Alcohol and Nicotine 458

## VI Drugs That Affect Fluid and Electrolyte Balance

41. Diuretics 476
42. Agents Affecting the Volume and Ion Content of Body Fluids 488

## VII Drugs That Affect the Heart, Blood Vessels, and Blood

43. Review of Hemodynamics 493
44. Drugs Acting on the Renin-Angiotensin-Aldosterone System 500
45. Calcium Channel Blockers 515
46. Vasodilators 524
47. Drugs for Hypertension 529
48. Drugs for Heart Failure 551
49. Antidysrhythmic Drugs 568
50. Prophylaxis of Coronary Heart Disease: Drugs That Help Normalize Cholesterol and Triglyceride Levels 590
51. Drugs for Angina Pectoris 617
52. Anticoagulant, Antiplatelet, and Thrombolytic Drugs 631
53. Management of ST-Elevation Myocardial Infarction 662
54. Drugs for Hemophilia 668
55. Drugs for Deficiency Anemias 676
56. Hematopoietic Agents 691

## VIII Drugs for Endocrine Disorders

57. Drugs for Diabetes Mellitus 702
58. Drugs for Thyroid Disorders 738
59. Drugs Related to Hypothalamic and Pituitary Function 750
60. Drugs for Disorders of the Adrenal Cortex 760

# Contents

## IX Women's Health

61. Estrogens and Progestins: Basic Pharmacology and Noncontraceptive Applications **768**
62. Birth Control **786**
63. Drug Therapy of Infertility **805**
64. Drugs That Affect Uterine Function **813**

## X Men's Health

65. Androgens **824**
66. Drugs for Erectile Dysfunction and Benign Prostatic Hyperplasia **834**

## XI Anti-inflammatory, Antiallergic, and Immunologic Drugs

67. Review of the Immune System **844**
68. Childhood Immunization **855**
69. Immunosuppressants **874**
70. Antihistamines **881**
71. Cyclooxygenase Inhibitors: Nonsteroidal Anti-inflammatory Drugs and Acetaminophen **889**
72. Glucocorticoids in Nonendocrine Disorders **909**

## XII Drugs for Bone and Joint Disorders

73. Drug Therapy of Rheumatoid Arthritis **919**
74. Drug Therapy of Gout **930**
75. Drugs Affecting Calcium Levels and Bone Mineralization **935**

## XIII Respiratory Tract Drugs

76. Drugs for Asthma **958**
77. Drugs for Allergic Rhinitis, Cough, and Colds **977**

## XIV Gastrointestinal Drugs

78. Drugs for Peptic Ulcer Disease **985**
79. Laxatives **1001**
80. Other Gastrointestinal Drugs **1009**

## XV Nutrition

81. Vitamins **1025**
82. Drugs for Weight Loss **1036**

## XVI Chemotherapy of Infectious Diseases

83. Basic Principles of Antimicrobial Therapy **1044**
84. Drugs That Weaken the Bacterial Cell Wall I: Penicillins **1059**
85. Drugs That Weaken the Bacterial Cell Wall II: Cephalosporins, Carbapenems, Vancomycin, Telavancin, Aztreonam, Teicoplanin, and Fosfomycin **1070**
86. Bacteriostatic Inhibitors of Protein Synthesis: Tetracyclines, Macrolides, and Others **1083**

87. Aminoglycosides: Bactericidal Inhibitors of Protein Synthesis **1095**
88. Sulfonamides and Trimethoprim **1103**
89. Drug Therapy of Urinary Tract Infections **1111**
90. Antimycobacterial Agents: Drugs for Tuberculosis, Leprosy, and *Mycobacterium avium* Complex Infection **1116**
91. Miscellaneous Antibacterial Drugs: Fluoroquinolones, Metronidazole, Daptomycin, Rifampin, Rifaximin, Bacitracin, and Polymyxins **1131**
92. Antifungal Agents **1137**
93. Antiviral Agents I: Drugs for Non-HIV Viral Infections **1150**
94. Antiviral Agents II: Drugs for HIV Infection and Related Opportunistic Infections **1170**
95. Drug Therapy of Sexually Transmitted Diseases **1218**
96. Antiseptics and Disinfectants **1226**

## XVII Chemotherapy of Parasitic Diseases

97. Anthelmintics **1233**
98. Antiprotozoal Drugs I: Antimalarial Agents **1238**
99. Antiprotozoal Drugs II: Miscellaneous Agents **1246**
100. Ectoparasiticides **1252**

## XVIII Cancer Chemotherapy

101. Basic Principles of Cancer Chemotherapy **1257**
102. Anticancer Drugs I: Cytotoxic Agents **1271**
103. Anticancer Drugs II: Hormonal Agents, Targeted Drugs, and Other Noncytotoxic Anticancer Drugs **1288**

## XIX Additional Important Drugs

104. Drugs for the Eye **1317**
105. Drugs for the Skin **1328**
106. Drugs for the Ear **1346**
107. Miscellaneous Noteworthy Drugs **1352**

## XX Alternative Therapy

108. Dietary Supplements **1369**

## XXI Toxicology

109. Management of Poisoning **1381**
110. Potential Weapons of Biologic, Radiologic, and Chemical Terrorism **1387**

## Appendixes

- A Adult Immunization, United States, 2011 **1397**
- B Guide to Gender-Related Drugs **1401**
- C Commonly Used Abbreviations **1402**
- D Canadian Drug Information **1404**
- E Prototype Drugs and Their Major Uses **1408**
