Table of Contents

Reading for Information	x
How to Think Like a Psychologist	xii

UNIT 1 Approaches to Psychology 2

Chapter 1 Introducing Psychology 6

1 Why Study Psychology?	7
2 A Brief History of Psychology	14
3 Psychology as a Profession	24

Chapter 2 Psychological Research Methods and Statistics 34

1 What Is Research?	35
2 Problems and Solutions in Research	42
3 Statistical Evaluation	47

UNIT 2 The Life Span 58

Chapter 3 Infancy and Childhood 60

1 Physical, Perceptual, and Language Development	61
2 Cognitive and Emotional Development	70
3 Parenting Styles and Social Development	78

Chapter 4 Adolescence 92

1 Physical and Sexual Development	93
2 Personal Development	101
3 Social Development	109
4 Gender Roles and Differences	116

Chapter 5 Adulthood and Old Age 128

1 Adulthood	129
2 Old Age	137
3 Dying and Death	144

UNIT 3 The Workings of Mind and Body 152

Chapter 6 Body and Behavior 154

1 The Nervous System: The Basic Structure	155
2 Studying the Brain	160
3 The Endocrine System	170
4 Heredity and Environment	174

Chapter 7 Altered States of Consciousness 182

1 Sleep and Dreams	183
2 Hypnosis, Biofeedback, and Meditation	191
3 Drugs and Consciousness	197

Chapter 8 Sensation and Perception . . . 206

1 Sensation	207
2 The Senses	214
3 Perception	223

UNIT 4 Learning and Cognitive Processes 238

Chapter 9 Learning: Principles and Applications 240

1 Classical Conditioning	241
2 Operant Conditioning	250
3 Social Learning	259

Chapter 10 Memory and Thought 272

1 Taking in and Storing Information	273
2 Retrieving Information	282

Chapter 11 Thinking and Language . . . 294

1 Thinking and Problem Solving	295
2 Language	304

Table of Contents

Chapter 12 Motivation and Emotion . . . 312

- 1 Theories of Motivation 313
- 2 Biological and Social Motives 319
- 3 Emotions 328

5 Personality and Individuality 340

Chapter 13 Psychological Testing 342

- 1 Characteristics of Psychological Tests 343
- 2 Intelligence Testing 348
- 3 Measuring Achievement, Abilities, and Interests 359
- 4 Personality Testing 363

Chapter 14 Theories of Personality 374

- 1 Purposes of Personality Theories 375
- 2 Psychoanalytic Theories 378
- 3 Learning Theories 387
- 4 Humanistic and Cognitive Theories 391
- 5 Trait Theories 398

6 Adjustment and Breakdown 410

Chapter 15 Stress and Health 412

- 1 Sources of Stress 413
- 2 Reactions to Stress 420
- 3 Coping With Stress 430
- 4 Stress in Your Life 437

Chapter 16 Psychological Disorders . . . 446

- 1 What Are Psychological Disorders? 447
- 2 Anxiety Disorders 455
- 3 Somatoform and Dissociative Disorders 460
- 4 Schizophrenia and Mood Disorders 465

- 5 Personality Disorders and Drug Addiction 474

Chapter 17 Therapy and Change 484

- 1 What Is Psychotherapy? 485
- 2 Psychoanalysis and Humanistic Therapy 493
- 3 Cognitive and Behavior Therapies 499
- 4 Biological Approaches to Treatment 506

7 Social Psychology 516

Chapter 18 Individual Interaction 518

- 1 Interpersonal Attraction 519
- 2 Social Perception 527
- 3 Personal Relationships 533

Chapter 19 Group Interaction 544

- 1 Group Behavior 545
- 2 Conformity and Obedience 555
- 3 Conflict and Cooperation 564

Chapter 20 Attitudes and Social Influence 576

- 1 Attitude Formation 577
- 2 Attitude Change and Prejudice 582
- 3 Persuasion 590

Chapter 21 Psychology: Present and Future 602

- 1 Careers in Psychology 603
- 2 Psychology's Contributions 610

Skills Handbook 620

Glossary-Glosario 630

Index 662

Visit the *Understanding Psychology* Web site!

All essential content is covered in the Student Edition, but use our Web site for additional resources including:

- **Chapter Overviews** for a quick view of the chapter.
- **Student Web Activities** take you into the real world of psychology.
- **Self-Check Quizzes** to help prepare you for the Chapter Test.

Profiles In Psychology

Mary Whiton Calkins	19
Jane Goodall	36
Jean Piaget	73
Erik Erikson	106
Elisabeth Kübler-Ross	145
Roger Wolcott Sperry	164
Franz Anton Mesmer	192
Gustav Theodor Fechner	209
Ivan Petrovich Pavlov	245
Elizabeth Loftus	285
Noam Chomsky	306
Paul Ekman	331
Howard Gardner	350
Carl Rogers	395
Deepak Chopra	423
Abraham Maslow	451
Dorothea Dix	487
Sigmund Freud	535
Linda L. McCarley	606

Case Studies

The Four Humors	23
The Case of Clever Hans	46
Too Late for Words: The Case of Genie	69
Early Maturation	100
Psychologically Able to Decide?	148
One Person... Two Brains?	169

A Breath of Fresh Air	196
Seeing Is Believing	232
The Case of Little Albert	249
The Case of H.M.	281
Checkmate	303
A Balance for Living	318
WAIS-R: Is It Reliable?	358
Personality Disorder	404
The Illusion of Stress	436
Munchausen's Syndrome	464
The Case of Rat Man	498
What You See Is What You Get?	526
Your Stripes or Your Morality	563
Feelings vs. Actions	589
Parapsychology	609

Quick Lab

Why do you do what you do?	20
Do some people really have psychic powers?	54
How do children exhibit attachment?	77
How does the media portray adolescents?	104
Do men and women go through the same stages of development?	136
Can you determine whether the left or right hemisphere of the brain is dominant?	165
Can you hypnotize yourself?	194
Can you detect changes in stimuli?	211
What reinforcement schedules operate in your classroom?	253
Can you improve your memory?	287
How do advertisements "motivate" people to buy products?	316
Do interest inventories help determine a career?	361
Do we see ourselves as others see us?	402
What stresses teenagers?	418
What fears are most common among teenagers?	458
How can someone overcome an irrational fear?	502
What traits are important in a potential marriage partner?	538
How do we conform to group norms?	558
How similar are your views to your parents'?	580
