## CONTENTS

Abbreviations list .....	4
Definition .....	5
Preface.....	5
The aim of the seminar .....	6
Objectives of the seminar .....	6
Methods and Materials of the seminar .....	7
Questions for students' self-training .....	7
Epidemiology of primary myelofibrosis .....	8
Etiology of primary myelofibrosis .....	8
Pathogenesis of primary myelofibrosis .....	9
Clinical features, types and complications of primary myelofibrosis .....	10
Diagnosis of primary myelofibrosis .....	11
Hematological features of primary myelofibrosis .....	12
The diagnostic value of bone marrow biopsy in primary myelofibrosis .....	12
Prognostic scoring in primary myelofibrosis .....	12
The diagnostic value of immunophenotyping and immunohistochemistry in primary myelofibrosis .....	13
The diagnostic value of cytogenetic and molecular examinations in primary myelofibrosis .....	15
Differential diagnosis of primary myelofibrosis .....	16
Principles of management and treatment options in primary myelofibrosis .....	17
Evolution and prognosis.....	18
Clinical case studies .....	19
Assessment tests .....	22
References .....	28
