CONTENTS

Chapter 1. Healthcare Unit Hygiene - Introduction	7
1.1. Architecture and Layout in Healthcare Units (HCU). Organizational Measures.....	8
1.2. Definition and Characterization of Nosocomial Infections (NI).....	13
1.3. Basic Hygiene Rules in the Nosocomial Infection Prevention.....	15
1.4. Monitoring of Infection Control.....	16
Chapter 2. Screening in the Prevention of Nosocomial Infections	19
2.1. Patient Screening.....	19
2.1.1. Medical History.....	19
2.1.2. Social History.....	20
2.1.3. General Physical Examination.....	21
2.2. Medical Staff Screening and Immunization.....	21
2.3. Personal Hygiene Requirements.....	22
Chapter 3. Hand Hygiene	24
3.1. Hand Skin.....	24
3.2. Hand Hygiene Principles.....	25
3.3. The Five Moments for Hand Hygiene.....	27
3.4. Full Hand Hygiene Procedures.....	30
3.4.1. Alcohol Based Hand Rub.....	30
3.4.2. Hand Hygiene with Soap and Water.....	31
3.5. Products for Hand Hygiene.....	32
3.5.1. Healthcare Personnel Hand Washes.....	32
3.5.2. Other Types of Hand Cleansers.....	33
3.5.3. Antiseptics (Sanitizers) Used in Hand Rub.....	33
3.6. Skin Damage Resulting from Hand Hygiene Measures.....	34
3.6.1. Irritant Contact Dermatitis.....	34

3.6.2. Allergic Contact Dermatitis.....	35
Chapter 4. Personal Protective Equipment (PPE).....	37
4.1. General Background.....	37
4.2. Gloves.....	38
4.2.1. Types of Gloves.....	39
4.2.2. Single Use Versus Reuse of Medical Gloves	43
4.2.3. Double Gloving.....	44
4.3. Face and Eyes Protection.....	46
4.3.1. Masks.....	46
4.3.2. Face Shields.....	48
4.4. Hospital Clothing.....	50
4.4.1. Work Clothing.....	50
4.4.2. Protective Clothing.....	51
Chapter 5. Cleaning, Disinfection, Sterilization.....	54
5.1. Basic Terminology. Categories of Items for Patient Care.....	54
5.2. Cleaning.....	55
5.2.1. General Requirements.....	55
5.2.2. Methods of Cleaning.....	56
5.2.3. Cleaning Agents. Checking Effectiveness of Cleaning.....	57
5.3. Disinfection.....	57
5.3.1. General Background.....	57
5.3.2. Methods of Disinfection.....	58
5.3.3. Characteristics of Main Disinfectants.....	64
5.4. Sterilization of Instruments.....	67
5.4.1. Heat Sterilization.....	68
5.4.2. Low-Temperature Sterilization	71
Chapter 6. Airborne Infection Control in Healthcare Units.....	74
6.1. General Background.....	74
6.2. Physical Variables of Droplet and Airborne Transmission	75

6.2.1. Particle Characteristics.....	75
6.2.2. Environmental Conditions.....	77
6.3. Origin of Droplet and Airborne Microorganisms	78
6.4. Airborne Infection Control.....	80
6.4.1. Environmental Control.....	81
6.4.2. Administrative Control.....	82
6.4.3. Personal Control.....	83
Chapter 7. Solid Healthcare Waste.....	85
7. 1. Definition, Sources, Characterization, Health Risks.....	85
7.2. Categories of Solid Waste in HCU.....	86
7.2.1. Hazardous (Special) Healthcare Waste.....	86
7.2.2. Non-hazardous (General) Healthcare Waste.....	91
7.3. The Decision-Tree in Healthcare Solid Waste Management.....	91
7.3.1. Waste minimization.....	92
7.3.2. Segregation.....	92
7.3.3. Codification.....	92
7.3.4. Handling.....	93
7.3.5. Transportation.....	94
7.3.6. Treatment.....	94
7.3.7. Final Disposal.....	102
Chapter 8. Liquid Healthcare Waste.....	104
8.1. General Background.....	104
8.2. Types of Liquid Waste.....	106
8.3. Segregation and Management of Liquid Waste.....	107
8.4. Disposal Procedures for Infectious Liquid Waste.....	107
8.4.1. Pouring Biomedical Liquids down the Sanitary Sewer.....	108
8.4.2. Placing Directly in the Biohazard Waste Bin	109
8.4.3. Healthcare Units with No Available Options	109
8.4.4. Cleaning up a Small Mercury Spill.....	109

8.4.5. Disposal Procedures for Photographic Liquid Waste.....	111
8.4.6. Disposal Procedures for Radioactive Liquid Medical Waste....	111
8.4.7. Disposal Procedures for Pharmaceutical Liquid Medical Waste	112
Chapter 9. Anthropometry.....	114
9.1. Definition, Purpose, Critical Components.....	114
9.2. Standing Height.....	117
9.3. Sitting Height.....	119
9.4. Body Weight.....	120
9.5. Chest Expansion Measures	121
9.6. Abdominal (Waist) Circumference.....	122
9.7. Head Circumference.....	123
9.8. Skinfolds.....	124
9.9. Body Somatotypes.....	126
Chapter 10. Exposure History.....	128
10.1. General Background.....	128
10.2. Components of an Exposure History Form.....	131
10.2.1. Exposure Survey.....	131
10.2.2. Work (Occupational) History.....	132
10.2.3. Environmental History.....	132
10.3. Toxicants in the Home / Environment.....	133
Chapter 11. Sick Building Syndrome.....	136
11.1. Building Investigation Procedure.....	137
11.1.1. Walk Through Survey.....	137
11.1.2. Environmental Measurements.....	138
11.2. Assessment of Workers' Symptoms.....	138
11.2.1. Questionnaire and Building Symptom Index.....	138
11.2.2. Medical Examination.....	140
11.3. Management of SBS.....	141
References.....	143
