Contents

Anatomy and Physiology

1	Gross Anatomy, Cranial and Spine	64
1.1	Cortical surface anatomy	64
1.2	Central sulcus on axial imaging	66
1.3	Surface anatomy of the cranium	68
1.4	Surface landmarks of spine levels	70
1.5	Cranial foramina and their contents	71
1.6	Internal capsule	73
1.7	Cerebellopontine angle anatomy	74
1.8	Occipitoatlantoaxial-complex anatomy	74
1.9	Spinal cord anatomy	77
2	Vascular Anatomy	82
2.1	Cerebral vascular territories	82
2.2	Cerebral arterial anatomy	82
2.3	Cerebral venous anatomy	92
2.4	Spinal cord vasculature	95
3	Neurophysiology and Regional Brain Syndromes	98
3.1	Neurophysiology	98
3.2	Regional brain syndromes	106
3.3	Jugular foramen syndromes	110

General and Neurology

4	Neuroanesthesia	116
4.1	ASA classification	116
4.2	Neuroanesthesia parameters	116
4.3	Drugs used in neuroanesthesia	117
4.4	Anesthetic requirements for intraoperative evoked potential monitoring	120
4.5	Malignant hyperthermia	120
5	Sodium Homeostasis and Osmolality	122
5.1	Serum osmolality and sodium concentration	122
5.2	Hyponatremia	122
5.3	Hypernatremia	132
6	General Neurocritical Care	139
6.1	Parenteral agents for hypertension	139
6.2	Hypotension (shock)	140
6.3	Acid inhibitors	142
6.4	Rhabdomyolysis	144
7	Sedatives, Paralytics, Analgesics	147
7.1	Sedatives and paralytics	147
7.2	Paralytics (neuromuscular blocking agents)	149
7.3	Analgesics	151

8	Endocrinology	158
8.1	Corticosteroids	158
8.2	Hypothyroidism	162
8.3	Pituitary embryology and neuroendocrinology	163
9	Hematology	167
9.1	Circulating blood volume	167
9.2	Blood component therapy	167
9.3	Anticoagulation considerations in neurosurgery	170
9.4	Extramedullary hematopoiesis	186
10	Neurology for Neurosurgeons	189
10.1	Dementia	189
10.2	Headache	189
10.3	Parkinsonism	191
10.4	Multiple sclerosis	194
10.5	Acute disseminated encephalomyelitis	197
10.6	Motor neuron diseases	197
10.7	Guillain-Barré syndrome	199
10.8	Myelitis	202
10.9	Neurosarcoidosis	204
11	Neurovascular Disorders and Neurotoxicology ..	209
11.1	Posterior reversible encephalopathy syndrome (PRES) ...	209
11.2	Crossed cerebellar diaschisis	209
11.3	Vasculitis and vasculopathy	210
11.4	Neurotoxicology	219

Imaging and Diagnostics

12	Plain Radiology and Contrast Agents	228
12.1	C-Spine X-rays	228
12.2	Lumbosacral (LS) spine X-rays	232
12.3	Skull X-rays	233
12.4	Contrast agents in neuroradiology	235
12.5	Radiation safety for neurosurgeons	240
13	Imaging and Angiography	243
13.1	CAT scan (AKA CT scan)	243
13.2	Magnetic resonance imaging (MRI)	244
13.3	Angiography	251
13.4	Myelography	251
13.5	Radionuclide scanning	251
14	Electrodiagnostics	253
14.1	Electroencephalogram (EEG)	253
14.2	Evoked potentials	253
14.3	NCS/EMG	258

Developmental Anomalies

15	Primary Intracranial Anomalies	262
15.1	Arachnoid cysts, intracranial	262
15.2	Craniofacial development	265
15.3	Dandy Walker malformation	271
15.4	Aqueductal stenosis	273
15.5	Agenesis of the corpus callosum	275

15.6	Absence of the septum pellucidum	276
15.7	Intracranial lipomas	276
15.8	Hypothalamic hamartomas	277
16	Primary Spinal Anomalies	280
16.1	Spinal arachnoid cysts	280
16.2	Spinal dysraphism (spina bifida)	280
16.3	Klippel-Feil syndrome	287
16.4	Tethered cord syndrome	287
16.5	Split cord malformation	289
16.6	Lumbosacral nerve root anomalies	290
17	Primary Craniospinal Anomalies	292
17.1	Chiari malformations	292
17.2	Neural tube defects	303
17.3	Neurenteric cysts	307
Coma and Brain Death		
18	Coma	312
18.1	Coma and coma scales	312
18.2	Posturing	312
18.3	Etiologies of coma	313
18.4	Herniation syndromes	318
18.5	Hypoxic coma	321

19	Brain Death and Organ Donation	324
19.1	Brain death in adults	324
19.2	Brain death criteria	324
19.3	Brain death in children	329
19.4	Organ and tissue donation	330
Infection		
20	Bacterial Infections of the Parenchyma and Meninges and Complex Infections	334
20.1	Meningitis	334
20.2	Cerebral abscess	336
20.3	Subdural empyema	343
20.4	Neurologic involvement in HIV/AIDS	346
20.5	Lyme disease—neurologic manifestations	350
20.6	Nocardia brain abscess	352
21	Skull, Spine, and Post-Surgical Infections	355
21.1	Shunt infection	355
21.2	External ventricular drain (EVD)-related infection	358
21.3	Wound infections	361
21.4	Osteomyelitis of the skull	364
21.5	Spine infections	364
22	Other Nonbacterial Infections	379
22.1	Viral encephalitis	379
22.2	Creutzfeldt-Jakob disease	381
22.3	Parasitic infections of the CNS	385
22.4	Fungal infections of the CNS	390
22.5	Amebic infections of the CNS	392

Hydrocephalus and Cerebrospinal Fluid (CSF)

23	Cerebrospinal Fluid	396
23.1	General CSF characteristics.....	396
23.2	Bulk flow model.....	396
23.3	CSF constituents.....	397
23.4	Cranial CSF fistula.....	397
23.5	Spinal CSF fistula.....	400
23.6	Meningitis in CSF fistula.....	400
23.7	Evaluation of the patient with CSF fistula.....	400
23.8	Treatment for CSF fistula.....	402
23.9	Intracranial hypotension.....	403
24	Hydrocephalus – General Aspects	408
24.1	Basic definition.....	408
24.2	Epidemiology.....	408
24.3	Etiologies of hydrocephalus.....	408
24.4	Signs and symptoms of HCP.....	409
24.5	CT/MRI criteria for hydrocephalus.....	412
24.6	Differential diagnosis of hydrocephalus.....	413
24.7	Chronic HCP.....	414
24.8	External hydrocephalus (AKA benign external hydrocephalus).....	414
24.9	X-linked hydrocephalus.....	415
24.10	“Arrested hydrocephalus”.....	416
24.11	Entrapped fourth ventricle.....	416
24.12	Normal pressure hydrocephalus (NPH).....	417
24.13	Hydrocephalus and pregnancy.....	427

25	Treatment of Hydrocephalus	431
25.1	Medical treatment of hydrocephalus	431
25.2	Spinal taps	431
25.3	Surgical	431
25.4	Endoscopic third ventriculostomy	432
25.5	Shunts	433
25.6	Shunt problems	437
25.7	Specific shunt systems	445
25.8	Surgical insertion techniques	453
25.9	Instructions to patients	453

Seizures

26	Seizure Classification and Anti-Convulsant Pharmacology	458
26.1	Seizure classification	458
26.2	Antiepileptic drugs	462
27	Special Types of Seizures	479
27.1	New onset seizures	479
27.2	Posttraumatic seizures	480
27.3	Alcohol withdrawal seizures	482
27.4	Nonepileptic seizures	482
27.5	Febrile seizures	485
27.6	Status epilepticus	486

Pain

28	Pain	494
28.1	Major types of pain	494
28.2	Neuropathic pain syndromes	494
28.3	Craniofacial pain syndromes	495
28.4	Postherpetic neuralgia	498
28.5	Complex regional pain syndrome (CRPS)	501

Peripheral Nerves

29	Peripheral Nerves	506
29.1	Peripheral nerves – definitions and grading scales	506
29.2	Muscle innervation	508
29.3	Peripheral nerve injury/surgery	511
30	Entrapment Neuropathies	517
30.1	Entrapment neuropathy – definitions and associations ...	517
30.2	Mechanism of injury	517
30.3	Occipital nerve entrapment	517
30.4	Median nerve entrapment	519
30.5	Ulnar nerve entrapment	529
30.6	Radial nerve injuries	534
30.7	Injury in the hand	535
30.8	Axillary nerve injuries	535
30.9	Suprascapular nerve	536
30.10	Meralgia paresthetica	537
30.11	Obturator nerve entrapment	538

30.12	Femoral nerve entrapment	538
30.13	Common peroneal nerve palsy	538
30.14	Tarsal tunnel	540
31	Non-Entrapment Peripheral Neuropathies	544
31.1	Definitions	544
31.2	Etiologies of peripheral neuropathy	544
31.3	Classification	544
31.4	Clinical	545
31.5	Syndromes of peripheral neuropathy	545
31.6	Peripheral nerve injuries	553
31.7	Missile injuries of peripheral nerves	557
31.8	Thoracic outlet syndrome	557

Neurophthalmology and Neurotology

32	Neurophthalmology	562
32.1	Nystagmus	562
32.2	Papilledema	562
32.3	Visual fields	564
32.4	Pupillary diameter	565
32.5	Extraocular muscle (EOM) system	571
32.6	Neurophthalmologic syndromes	575
32.7	Miscellaneous neurophthalmologic signs	576
33	Neurotology	578
33.1	Dizziness and vertigo	578
33.2	Meniere's disease	579

33.3	Facial nerve palsy	582
33.4	Hearing loss	586

Primary Tumors of the Nervous and Related Systems

34	Primary Tumors – Classification and Tumor Markers	591
34.1	Classification of nervous system tumors	591
34.2	Brain tumors—general clinical aspects	595
34.3	Pediatric brain tumors	598
34.4	Medications for brain tumors	599
34.5	Chemotherapy for brain tumors	600
34.6	Intraoperative pathology consultations (“frozen section”)	601
34.7	Select commonly utilized stains in neuropathology	603
35	Syndromes Involving Tumors	608
35.1	Neurocutaneous disorders	608
35.2	Familial tumor syndromes	616
36	Diffuse Astrocytic & Oligodendroglial Tumors	618
36.1	Incidence	618
36.2	Risk factors for diffuse gliomas	618
36.3	Classification and grading of astrocytic tumors	618
36.4	General features of gliomas	622
36.5	Diffuse astrocytomas	623
36.6	Anaplastic astrocytomas	626
36.7	Glioblastomas	626
36.8	Diffuse midline glioma, H3 K27M-mutant (WHO grade IV)	631

36.9	Oligodendroglial tumors	631
36.10	Oligoastrocytic tumors	633
36.11	Multiple gliomas	634
36.12	Treatment of WHO grade II diffuse astrocytomas	634
36.13	Treatment of WHO grade III & IV diffuse gliomas.....	635
36.14	Response to treatment.....	637
36.15	Treatment for recurrent GBM.....	637
36.16	Outcome.....	639
37	Other Astrocytic Tumors	644
37.1	Pilocytic astrocytomas (PCAs) (WHO grade I).....	644
37.2	Subependymal giant cell astrocytoma (SEGA) (WHO grade I).....	651
37.3	Pleomorphic xanthoastrocytoma (PXA) (WHO grade II) ...	652
37.4	Anaplastic pleomorphic xanthoastrocytoma (WHO grade III)	653
38	Ependymal, Choroid Plexus, & Neuronal Tumors and Other Gliomas.....	655
38.1	Ependymal tumors	655
38.2	Other gliomas	659
38.3	Choroid plexus tumors.....	659
38.4	Neuronal and mixed neuronal-glia tumors.....	661
39	Pineal Region and Embryonal Tumors	672
39.1	Pineal region tumors	672
39.2	Embryonal tumors.....	676

40	Tumors of Cranial, Spinal, and Peripheral Nerves	683
40.1	Vestibular schwannoma	683
40.2	Perineurioma (WHO grade I-III)	704
40.3	Malignant peripheral nerve sheath tumors (MPNST) (no WHO grade)	704
41	Meningeal, Mesenchymal and Melanocytic Tumors	707
41.1	Meningiomas	707
41.2	Mesenchymal, non-meningothelial tumors	716
41.3	Melanocytic tumors	721
42	Lymphomas, Histiocytic Tumors, Germ Cell Tumors & Tumors of the Sellar Region	725
42.1	Lymphomas (CNS)	725
42.2	Histiocytic tumors	729
42.3	Germ cell tumors (GCT)	730
42.4	Tumors of the sellar region	731
Tumors of Non-Neural Origin		
43	Pituitary Tumors – General Information and Classification	739
43.1	Pituitary tumors – key concepts	739
43.2	General tumor types	739
43.3	Epidemiology	739
43.4	Differential diagnosis of pituitary tumors	739
43.5	Clinical presentation of pituitary tumors	740
43.6	Specific types of pituitary tumors	743

44	Pituitary Adenomas – Evaluation and Nonsurgical Management	750
44.1	Evaluation	750
44.2	Management/treatment recommendations	759
44.3	Radiation therapy for pituitary adenomas	766
45	Pituitary Adenomas – Surgical Management, Outcome, and Recurrence Management	769
45.1	Surgical treatment for pituitary adenomas	769
45.2	Outcome following transsphenoidal surgery	776
45.3	Follow-up suggestions for pituitary adenomas	777
45.4	Recurrent pituitary adenomas	778
46	Esthesioneuroblastoma, Cysts & Tumor-Like Lesions	780
46.1	Esthesioneuroblastoma	780
46.2	Rathke's cleft cyst	781
46.3	Colloid cyst	783
46.4	Epidermoid and dermoid tumors	787
46.5	Pineal cysts (PCs)	790
47	Pseudotumor Cerebri and Empty Sella Syndrome	794
47.1	Pseudotumor cerebri	794
47.2	Empty sella syndrome	801
48	Tumors and Tumor-Like Lesions of the Skull	804
48.1	Skull tumors	804
48.2	Non-neoplastic skull lesions	807

55.7	Traumatic subdural hygroma	937
55.8	Extraaxial fluid collections in children	939
55.9	Traumatic posterior fossa mass lesions	940
56	Gunshot Wounds and Non-Missile Penetrating Brain Injuries	944
56.1	Gunshot wounds to the head	944
56.2	Non-missile penetrating trauma	947
57	Pediatric Head Injury	949
57.1	Epidemiology of pediatric head injury and comparison to adults	949
57.2	Management	949
57.3	Outcome	950
57.4	Cephalhematoma	950
57.5	Skull fractures in pediatric patients	951
57.6	Retroclival hematoma	952
57.7	Nonaccidental trauma (NAT)	954
58	Head Injury – Long-Term Management, Complications, Outcome	956
58.1	Airway management	956
58.2	Deep-vein thrombosis (DVT) prophylaxis	956
58.3	Nutrition in the head-injured patient	956
58.4	Posttraumatic hydrocephalus	958
58.5	Outcome from head trauma	959
58.6	Late complications from traumatic brain injury	961

Spine Trauma

59	Spine Injuries – General Information, Neurologic Assessment, Whiplash and Sports-Related Injuries, Pediatric Spine Injuries	968
59.1	Introduction	968
59.2	Terminology	968
59.3	Whiplash-associated disorders	969
59.4	Pediatric spine injuries	971
59.5	Cervical bracing	973
59.6	Follow-up schedule	974
59.7	Sports-related cervical spine injuries	974
59.8	Neurological assessment	977
59.9	Spinal cord injuries	980
60	Management of Spinal Cord Injury	987
60.1	Spinal trauma management – general information	987
60.2	Management in the field	987
60.3	Management in the hospital	988
60.4	Radiographic evaluation and initial C-spine immobilization	990
60.5	Traction/reduction of cervical spine injuries	995
60.6	Timing of surgery following spinal cord injury	998
61	Occipitoatlantoaxial Injuries (Occiput to C2)	1000
61.1	Atlantooccipital dislocation	1000
61.2	Occipital condyle fractures	1003
61.3	Atlantoaxial subluxation/dislocation	1005

61.4	Atlas (C1) fractures	1008
61.5	Axis (C2) fractures	1011
61.6	Combination C1 & C2 injuries	1022
62	Subaxial (C3 through C7) Injuries / Fractures	1026
62.1	Classification systems	1026
62.2	Clay shoveler's fracture	1028
62.3	Vertical compression injuries	1028
62.4	Flexion injuries of the subaxial cervical spine	1028
62.5	Distraction flexion injuries	1031
62.6	Extension injuries of the subaxial cervical spine	1034
62.7	Treatment of subaxial cervical spine fractures	1036
62.8	Spinal cord injury without radiographic abnormality (SCIWORA)	1038
63	Thoracic, Lumbar and Sacral Spine Fractures	1041
63.1	Assessment and management of thoracolumbar fractures	1041
63.2	Surgical treatment	1047
63.3	Osteoporotic spine fractures	1048
63.4	Sacral fractures	1054
64	Penetrating Spine Injuries and Long Term Considerations of Spine Injuries	1057
64.1	Gunshot wounds to the spine	1057
64.2	Penetrating trauma to the neck	1057
64.3	Delayed cervical instability	1059
64.4	Delayed deterioration following spinal cord injuries	1059
64.5	Chronic management issues with spinal cord injuries	1059

Non-Traumatic Spine and Spinal Cord Conditions

65	Low Back Pain and Radiculopathy	1065
65.1	Low back pain – general information	1065
65.2	Intervertebral disc	1065
65.3	Nomenclature for disc pathology	1065
65.4	Vertebral body marrow changes	1066
65.5	Clinical terms	1066
65.6	Disability, pain and outcome determinations	1067
65.7	Differential diagnosis of low back pain	1067
65.8	Initial assessment of the patient with back pain	1067
65.9	Radiographic evaluation	1069
65.10	Electrodiagnostics for low back problems	1073
65.11	Bone scan for low back problems	1074
65.12	Thermography for low back problems	1074
65.13	Psychosocial factors	1074
65.14	Treatment	1074
65.15	Chronic low back pain	1079
65.16	Coccydynia	1079
65.17	Failed back surgery syndrome	1081
66	Lumbar and Thoracic Intervertebral Disc Herniation / Radiculopathy	1087
66.1	Lumbar disc herniation and lumbar radiculopathy	1087
66.2	Thoracic disc herniation	1104
67	Cervical Disc Herniation	1115
67.1	Cervical disc herniation – general information	1115

67.2	Cervical nerve root syndromes (cervical radiculopathy) . . .	1115
67.3	Cervical myelopathy and SCI due to cervical disc herniation	1115
67.4	Differential diagnosis	1115
67.5	Physical exam for cervical disc herniation	1116
67.6	Radiologic evaluation	1116
67.7	Treatment	1117
68	Degenerative Cervical Disc Disease and Cervical Myelopathy	1129
68.1	Cervical disc degeneration – general information	1129
68.2	Pathophysiology	1129
68.3	Clinical	1130
68.4	Differential diagnosis	1133
68.5	Evaluation	1133
68.6	Treatment	1135
68.7	Coincident cervical and lumbar spinal stenosis	1139
69	Thoracic and Lumbar Degenerative Disc Disease	1142
69.1	Degenerative disc disease – general information	1142
69.2	Anatomic substrate	1142
69.3	Risk factors	1147
69.4	Associated conditions	1147
69.5	Clinical presentation	1148
69.6	Differential diagnosis	1149
69.7	Diagnostic evaluation	1150
69.8	Treatment	1151
69.9	Outcome	1156

70	Adult Spinal Deformity and Degenerative Scoliosis	1159
70.1	Adult spinal deformity - general information	1159
70.2	Epidemiology	1159
70.3	Clinical evaluation	1159
70.4	Diagnostic testing	1159
70.5	Pertinent spine measurements	1160
70.6	SRS-Schwab classification of adult spinal deformity	1161
70.7	Treatment/management	1162
71	Special Conditions Affecting the Spine	1171
71.1	Paget's disease of the spine	1171
71.2	Ankylosing and ossifying conditions of the spine	1174
71.3	Scheuermann's kyphosis	1182
71.4	Miscellaneous conditions affecting the spine	1184
72	Other Non-Spine Conditions with Spine Implications	1194
72.1	Rheumatoid arthritis	1194
72.2	Down syndrome	1198
72.3	Morbid obesity	1199
73	Special Conditions Affecting the Spinal Cord	1200
73.1	Spinal vascular malformations	1200
73.2	Spinal meningeal cysts	1202
73.3	Juxtafacet cysts of the lumbar spine	1203

73.4	Syringomyelia.....	1205
73.5	Posttraumatic syringomyelia.....	1210
73.6	Spinal cord herniation (idiopathic).....	1211
73.7	Spinal epidural lipomatosis (SEL).....	1212
73.8	Craniocervical junction and upper cervical spine abnormalities.....	1212

Subarachnoid Hemorrhage and Aneurysms

74	Aneurysms – Introduction, Grading, Special Conditions.....	1216
74.1	Introduction and overview.....	1216
74.2	Etiologies of SAH.....	1216
74.3	Incidence.....	1217
74.4	Risk factors for SAH.....	1217
74.5	Clinical features.....	1217
74.6	Work-up of suspected SAH.....	1219
74.7	Grading SAH.....	1223
74.8	Pregnancy and intracranial hemorrhage.....	1224
74.9	Hydrocephalus after SAH.....	1225
75	Critical Care of Aneurysm Patients.....	1230
75.1	Initial management of SAH.....	1230
75.2	Rebleeding.....	1235
75.3	Neurogenic stress cardiomyopathy (NSC).....	1236
75.4	Neurogenic pulmonary edema.....	1237
75.5	Vasospasm.....	1237

83.1	Cerebral arterial dissections – key concepts	1394
83.2	Nomenclature	1394
83.3	Pathophysiology	1394

83.4	Epidemiology	1395
83.5	Sites of dissection	1395
83.6	Clinical	1395
83.7	Evaluation	1395
83.8	Overall outcome	1396
83.9	Vessel specific information	1396

Intracerebral Hemorrhage

84	Intracerebral Hemorrhage	1402
84.1	Intracerebral hemorrhage – general information	1402
84.2	Epidemiology	1402
84.3	Locations of hemorrhage within the brain	1403
84.4	Etiologies	1404
84.5	Clinical	1408
84.6	Evaluation	1410
84.7	Initial management of ICH	1412
84.8	Surgical treatment	1417
84.9	Outcome	1420
84.10	ICH in young adults	1421
84.11	Intracerebral hemorrhage in the newborn	1421
84.12	Other causes of intracerebral hemorrhage in the newborn	1428

Outcome Assessment

35	Outcome Assessment	1436
35.1	Cancer	1436
35.2	Head injury	1436
35.3	Cerebrovascular events	1436
35.4	Spinal cord injury	1439

Differential Diagnosis

36	Differential Diagnosis by Location or Radiographic Finding – Intracranial	1442
36.1	Diagnoses covered outside this chapter	1442
36.2	Posterior fossa lesions	1442
36.3	Multiple intracranial lesions on CT or MRI	1446
36.4	Ring-enhancing lesions on CT/MRI	1447
36.5	White matter lesions	1449
36.6	Sellar, suprasellar, and parasellar lesions	1449
36.7	Intracranial cysts	1452
36.8	Orbital lesions	1453
36.9	Cavernous sinus lesions	1454
36.10	Skull lesions	1454
36.11	Other abnormalities of the skull	1457
36.12	Combined intracranial/extracranial lesions	1458
36.13	Intracranial hyperdensities	1458
36.14	Intracranial calcifications	1458
36.15	Intraventricular lesions	1460
36.16	Periventricular lesions	1462

86.17	Meningeal thickening/enhancement	1463
86.18	Ependymal and subependymal enhancement	1464
86.19	Intraventricular hemorrhage	1464
86.20	Medial temporal lobe lesions	1465
86.21	Basal ganglion abnormalities	1465
86.22	Thalamic lesions	1465
86.23	Intranasal/intracranial lesions	1466
87	Differential Diagnosis by Location or Radiographic Finding – Spine	1469
87.1	Diagnoses covered outside this chapter	1469
87.2	Atlantoaxial subluxation	1469
87.3	Abnormalities in vertebral bodies	1469
87.4	Axis (C2) vertebra lesions	1470
87.5	Mass posterior to the odontoid process	1470
87.6	Pathologic fractures of the spine	1471
87.7	Spinal epidural masses	1471
87.8	Destructive lesions of the spine	1471
87.9	Vertebral hyperostosis	1472
87.10	Sacral lesions	1472
87.11	Enhancing nerve roots	1473
87.12	Nodular enhancing lesions in the spinal canal	1473
87.13	Intraspinal cysts	1473
87.14	Diffuse enhancement of nerve roots/cauda equina	1473

88	Differential Diagnosis (DDx) by Signs and Symptoms – Primarily Intracranial	1475
88.1	Diagnoses covered outside this chapter	1475
88.2	Encephalopathy	1475
88.3	Syncope and apoplexy	1476
88.4	Transient neurologic deficit	1477
88.5	Ataxia/balance difficulties	1478
88.6	Diplopia	1478
88.7	Anosmia	1479
88.8	Multiple cranial nerve palsies (cranial neuropathies)	1479
88.9	Binocular blindness	1481
88.10	Monocular blindness	1481
88.11	Exophthalmos	1482
88.12	Ptosis	1482
88.13	Pathologic lid retraction	1483
88.14	Macrocephaly	1483
88.15	Tinnitus	1484
88.16	Facial sensory changes	1485
88.17	Language disturbance	1485
89	Differential Diagnosis (DDx) by Signs and Symptoms – Primarily Spine and Other	1487
89.1	Diagnoses covered outside this chapter	1487
89.2	Myelopathy	1487
89.3	Sciatica	1491
89.4	Acute paraplegia or quadriplegia	1493

89.5	Hemiparesis or hemiplegia	1494
89.6	Ascending paralysis	1495
89.7	Descending paralysis	1495
89.8	Low back pain	1495
89.9	Foot drop	1497
89.10	Weakness/atrophy of the hands/UEs	1499
89.11	Radiculopathy, upper extremity (cervical)	1501
89.12	Neck pain (cervical pain)	1501
89.13	Burning hands/feet	1502
89.14	Muscle pain/tenderness	1502
89.15	Lhermitte's sign	1502
89.16	Swallowing difficulties	1502

Procedures, Interventions, Operations

90	Intraoperative Dyes, OR Equipment, Surgical Hemostasis & Bone Extenders	1507
90.1	Introduction	1507
90.2	Intraoperative dyes	1507
90.3	Operating room equipment	1507
90.4	Surgical hemostasis	1509
90.5	Localizing levels in spine surgery	1509
90.6	Bone graft	1510

91	Craniotomies – General Information & Cortical Mapping	1517
91.1	Craniotomy – general information	1517
91.2	Intraoperative cortical mapping (brain mapping)	1520
92	Posterior Fossa Craniotomies	1525
92.1	Indications	1525
92.2	Position	1525
92.3	Paramedian suboccipital craniectomy	1528
92.4	Midline suboccipital craniectomy	1530
92.5	Extreme lateral posterior fossa approach	1532
92.6	Cranioplasty for suboccipital craniectomy	1532
92.7	Post-op considerations for p-fossa craniotomies	1533
93	Supratentorial Craniotomies	1536
93.1	Pterional craniotomy	1536
93.2	Temporal craniotomy	1539
93.3	Frontal craniotomy	1542
93.4	Petrosal craniotomy	1543
93.5	Occipital craniotomy	1544
94	Approaches to the Lateral and Third Ventricles, Decompressive Craniectomies & Cranioplasty	1545
94.1	Approaches to the lateral ventricle	1545
94.2	Approaches to the third ventricle	1545
94.3	Interhemispheric approach	1550
94.4	Cranioplasty	1550
94.5	Decompressive craniectomy	1553

99	Pain Procedures	1661
99.1	Prerequisites for pain procedures	1661
99.2	Choice of pain procedure	1661
99.3	Types of pain procedures	1661
99.4	Cordotomy	1662
99.5	Commissural myelotomy	1664
