Section I

Pharmacology for Nurses: Basic Principles

1 Introduction to Pharmacology..... 3

Jean Nicholas

Introduction.....	4
Nursing and Pharmacology.....	4
Overview of the Nursing Process.....	7
Cultural Aspects of Drug Therapy.....	9
Legal—Ethical Aspects of Drug Therapy.....	10
Medication Errors.....	10
Conclusion: Pharmacology in Nursing Practice.....	12
Chapter Summary.....	12
Critical Thinking Questions.....	13
References.....	13

2 Introduction to Drug Action: The Interplay of Pharmacokinetics and Pharmacodynamics..... 15

Diane F. Pacitti

Introduction.....	16
The Relationship Between Drugs and the Body.....	18
Toxicology.....	22
The Interplay of Pharmacokinetics, Pharmacodynamics, and Biopharmaceutics.....	23
Pharmacodynamics.....	24
Pharmacokinetics.....	32
Drug Distribution.....	37
Metabolism: Transformation of the Drug Molecule in the Liver.....	42
Drug Elimination Processes.....	46

Making the Connection to Clinical Nursing: An Application Case Study.....	48
Using Pharmacokinetics and Pharmacodynamics in Clinical Practice.....	51
Critical Thinking Questions.....	51
References.....	53

3 Medication Administration..... 55

Tara Kavanaugh

Introduction.....	56
Before Administering Medications: The Eight Medication “Rights”.....	56
Procedures for Administering Medications.....	58
Proper Procedure for Administering All Medications ..	60
Administering Oral Medications.....	61
Injecting Medications Safely.....	62
Intravenous and Intraosseous Medications.....	70
Inhaled Medications.....	73
Medication Transfer Across Permeable Tissues.....	77
Medication Errors.....	83
Conclusion: Medication Administration in Nursing Practice.....	85
Chapter Summary.....	85
Critical Thinking Questions.....	86
Suggested Readings.....	86
References.....	87

Section II

Pharmacology of the Physiology Systems

4 Central Nervous System Drugs..... 91

Dion M. Mayes-Burnett

Central Nervous System Physiology.....	92
Drugs Used for Conditions of the Central Nervous System.....	95
Analgesics and Pain Management.....	95
Seizure Disorders and Epilepsy.....	106
Neurodegenerative Diseases.....	110

Musculoskeletal Dysfunction	120	Drugs to Control Diarrhea	218
Chapter Summary	126	Drugs to Relieve Constipation	219
Critical Thinking Questions	127	Drugs to Treat Irritable Bowel Syndrome	221
Suggested Readings	129	Drugs to Control Nausea and Vomiting	223
References	129	Drugs to Treat Inflammatory Bowel Disease	226
5 Autonomic Nervous System Drugs..... 131		Bile Acid Therapy for Gallstones.....	229
<i>William Mark Enlow, Sue Greenfield, Cliff Roberson</i>		Chapter Summary	230
Introduction	132	Discussion Questions.....	231
Drugs That Affect the ANS.....	136	References	233
Cholinergic Drugs.....	147	9 Endocrine System Drugs 235	
Chapter Summary	152	<i>Karen Crowley, Cathi Bodine, Linda Tenofsky, Ashley Pratt, Sarah Nadarajah</i>	
Discussion Questions.....	155	Introduction	236
References	155	Endocrine Glands and Their Hormones.....	236
6 Cardiovascular Medications 157		Treating Endocrine Conditions	244
<i>Diane F. Pacitti, Blaine Templar Smith, Rhonda Lawes</i>		Discussion Questions.....	261
Introduction	158	References	262
Treatment of High Blood Pressure	159	10 Medications for Eye and Ear Disorders..... 265	
Hypertensive Emergencies	174	<i>Tara Kavanaugh</i>	
Treatment of Chest Pain/Angina	175	Introduction	266
Hyperlipidemia	177	Medications for Eye Disorders	266
Congestive Heart Failure.....	180	Glaucoma	269
Prevention of Thrombosis and Stroke:		Chronic Dry or Bloodshot Eyes	276
Anticoagulant Therapy	181	Drugs Used in Treating Ear Disorders.....	280
Chapter Summary	186	Chapter Summary	288
Discussion Questions.....	186	Discussion Questions.....	289
References	187	References	290
7 Respiratory Medications..... 189		11 Pharmacology of the Genitourinary System..... 293	
<i>Amy Rex Smith, Blaine Templar Smith</i>		<i>Diana M. Webber</i>	
Introduction	190	Introduction	294
Asthma	193	Urinary Tract Infections.....	295
Chronic Obstructive Pulmonary Disease.....	201	<i>Candida albicans</i> Vaginitis (Vaginal Yeast Infection)	300
Smoking-Cessation Therapy.....	203	Benign Hyperplasia of the Prostate.....	302
Chapter Summary	205	Erectile Dysfunction.....	303
Discussion Questions.....	206	Sexually Transmitted Infections.....	305
References	207	Female Hormonal Contraception.....	311
8 Pharmacology of the Gastrointestinal Tract..... 209		Urinary Incontinence.....	316
<i>Jacqueline Rosenjack Burchum, Hoi Sing Chung</i>		Chapter Summary	317
Introduction	210	Discussion Questions.....	317
The Nursing Care Process	211	References	322
Drugs to Control Gastric Acidity	213		
Drugs to Stimulate Gastrointestinal Motility	217		

Section III**Special Conditions and Supplemental Areas****12 Drugs Associated with Pregnancy, Labor and Delivery, and Lactation 327***Jean Nicholas*

Introduction	328
Medication Use on a Preconception Basis and in Early Pregnancy	330
Common Conditions Arising in Pregnancy	333
Drugs Used During Labor	337
Drugs Used During the Postpartum Period	340
Drugs Administered During Lactation	341
Chapter Summary	341
Discussion Questions	342
References	342

13 Pharmacology in Dermatologic Conditions 345*Diane Webber*

Introduction	346
Physiological Factors Affecting Transdermal Medication Administration	349
Acne Medications: An Example of Delivery Systems	349
Topical Dermatologic Medication Vehicles	353
Atopic Dermatitis	354
Antifungal Preparations	355
Chapter Summary	357
Discussion Questions	357
References	362

14 Pharmacology of Psychotropic Medications 363*Christopher Footit*

Introduction	364
Delusional Disorders (Psychoses)	365
Antidepressants and Antianxiety Medications	369

Mood Stabilizers for Bipolar Disorder	376
Attention-Deficit Disorder and Attention-Deficit/ Hyperactivity Disorder	379
Sleep Hypnotics	382
Chapter Summary	385
Discussion Questions	386
References	389

15 Pharmacology of Anesthetic Drugs . . . 391*Dwayne Accardo*

Introduction	392
Types of Anesthesia	392
Local and Topical Anesthesia	393
Inhalational Anesthesia	396
Intravenous Anesthetics	399
Chapter Summary	408
Discussion Questions	409
References	410

16 Pharmacology of Antimicrobial Drugs . 411*Blaine Templar Smith*

Introduction	412
Mechanisms of Drug Action: The Basics	414
Identification and Appropriate Treatment of Pathogenic Microbes	415
Superinfection	415
Resistance	415
Antibacterial Drugs	417
Antiviral Medications	439
Antifungal Agents	445
Antiparasitic Agents	448
Discussion Questions	451
References	453
