Michael Adams Nor

Pharmacology for Nurses

A Pathophysiologic Approach

Michael Patrick Adams

Adjunct Professor of Anatomy and Physiology
Hillsborough Community College
Formerly Dean of Health Professions
Pasco-Hernando State College

Leland Norman Holland, Jr.

Professor
Hillsborough Community College
Polk State College

Carol Quam Urban

Associate Dean for Practice and Strategic Initiatives
Associate Professor
College of Health and Human Services
George Mason University

771288

SL3

Brief Contents

Unit 1

Core Concepts in Pharmacology 1

Chapter 1	Introduction to Pharmacology	2
Chapter 2	Drug Approval and Regulation	10
Chapter 3	Principles of Drug Administration	19
Chapter 4	Pharmacokinetics	37
Chapter 5	Pharmacodynamics	48

Unit 2

Pharmacology and the Nurse–Patient Relationship 57

Chapter 6	The Nursing Process in Pharmacology	58
Chapter 7	Medication Errors and Risk Reduction	67
Chapter 8	Drug Administration Throughout the Lifespan	77
Chapter 9	Individual Variations in Drug Response	89
Chapter 10	The Role of Complementary and Alternative Therapies in Pharmacology	97
Chapter 11	Emergency Preparedness and Poisonings	107

Unit 3

The Nervous System 119

Chapter 12	Cholinergic Drugs Affecting the Autonomic Nervous System	120
Chapter 13	Adrenergic Drugs Affecting the Autonomic Nervous System	137
Chapter 14	Drugs for Anxiety and Insomnia	151
Chapter 15	Drugs for Seizures	168
Chapter 16	Drugs for Emotional, Mood, and Behavioral Disorders	186
Chapter 17	Drugs for Psychoses	208
Chapter 18	Drugs for the Control of Pain	223
Chapter 19	Drugs for Local and General Anesthesia	245
Chapter 20	Drugs for Degenerative Diseases of the Nervous System	263
Chapter 21	Drugs for Neuromuscular Disorders	280
Chapter 22	Substance Abuse	292

Unit 4

The Cardiovascular and Urinary Systems 305

Chapter 23	Drugs for Lipid Disorders	306
Chapter 24	Diuretic Therapy and Drugs for Kidney Failure	321
Chapter 25	Drugs for Fluid Balance, Electrolyte, and Acid–Base Disorders	336
Chapter 26	Drugs for Hypertension	351
Chapter 27	Drugs for Heart Failure	372

Chapter 28	Drugs for Angina Pectoris and Myocardial Infarction	387
Chapter 29	Drugs for Shock	404
Chapter 30	Drugs for Dysrhythmias	416
Chapter 31	Drugs for Coagulation Disorders	431
Chapter 32	Drugs for Hematopoietic Disorders	451

Unit 5

The Immune System 469

Chapter 33	Drugs for Inflammation and Fever	470
Chapter 34	Drugs for Immune System Modulation	485
Chapter 35	Drugs for Bacterial Infections	503
Chapter 36	Drugs for Tubercular, Fungal, Protozoan, and Helminthic Infections	530
Chapter 37	Drugs for Viral Infections	551
Chapter 38	Drugs for Neoplasia	574

Unit 6

The Respiratory System 599

Chapter 39	Drugs for Allergic Rhinitis and the Common Cold	600
Chapter 40	Drugs for Asthma and Other Pulmonary Disorders	616

Unit 7

The Gastrointestinal System 633

Chapter 41	Drugs for Peptic Ulcer Disease	634
Chapter 42	Drugs for Bowel Disorders and Other Gastrointestinal Conditions	649
Chapter 43	Drugs for Nutritional Disorders	668

Unit 8

The Endocrine System 689

Chapter 44	Drugs for Pituitary, Thyroid, and Adrenal Disorders	690
Chapter 45	Drugs for Diabetes Mellitus	712
Chapter 46	Drugs for Disorders and Conditions of the Female Reproductive System	729
Chapter 47	Drugs for Disorders and Conditions of the Male Reproductive System	751

Unit 9

The Integumentary System, Eyes, and Ears 767

Chapter 48	Drugs for Bone and Joint Disorders	768
Chapter 49	Drugs for Skin Disorders	792
Chapter 50	Drugs for Eye and Ear Disorders	810
