Textbook of **PATHOLOGY**

Eighth Edition

Harsh Mohan, MD FAMS FICPath FUICC

Former Professor and Head, Department of Pathology

Former Dean and Former Medical Superintendent

Government Medical College and Hospital

Sector-32, Chandigarh-160 031, INDIA

Editor-in-Chief, Indian Journal of Pathology and Microbiology (2003-2007)

President, Indian Association of Pathologists and Microbiologists (2008)

Haryana Vigyan Ratna, 2010-11

E-mail: drharshmohan@gmail.com

Contributor (photographs)

Ivan Damjanov, MD PhD

Professor, Department of Pathology

The University of Kansas School of Medicine

Kansas City, Kansas, USA

(Chief Editor, Anderson's Pathology, Tenth Edition)

Contents

SECTION I GENERAL PATHOLOGY

Chapter 1: History and Evolution of Modern Pathology

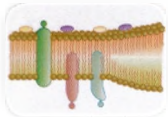

1

- ❖ **Introduction to Common Terms and Definitions** 1
- ❖ **History and Evolution of Pathology** 2: Prehistoric: Times to Medieval Period, 2; Human Anatomy and Era of Gross Pathology, 3; Era of Technology Development and Cellular Pathology, 4; Modern Pathology, 5
- ❖ **Subdivisions of Pathology** 6: Morphological Branches, 6; Non-morphological Branches, 7
- ❖ **Modern Methods in Learning and Practice of Pathology** 7

Chapter 2: Molecular Cell Biology in Health and in Ageing

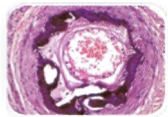

9

- ❖ **Human Genome** 9
- ❖ **Biomembranes—Molecular Organisation and Functions** 13: Plasma Membrane, 13; Other Membranes, 13; Functions of Plasma Membrane, 14
- ❖ **Biology of Cell Organelles** 15: Cytoskeleton: The Cell Scaffolding, 16; Mitochondria: The Energy Centre, 17; Endoplasmic Reticulum, Ribosomes and Golgi Apparatus: The Biosynthesis Machinery, 17; Lysosomes, Peroxisomes and Proteasomes: Waste Disposal and Recycling Plants, 19
- ❖ **Extracellular Matrix and Cellular Communications** 20: Extracellular Matrix, 20
- ❖ **Cellular Communications** 22: Intercellular Junctions, 22; Molecular Interactions, 23
- ❖ **Cell Cycle and its Regulators** 26: Overview of Cell Cycle, 26; Checkpoints in Cell Cycle, 27; Intrinsic Controls: Checkpoint Regulators, 27; Extrinsic Controls: Growth Factors and Receptors, 28
- ❖ **Stem Cells and Regenerative Medicine** 29
- ❖ **Biology of Ageing** 30: Cellular Basis of Ageing, 31; Organ Changes in Ageing, 32

Chapter 3: Cellular Adaptations and Cell Injury

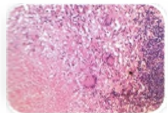

33

- ❖ **Response to Cell Injury and Causes** 33: Etiology of Cell Injury, 33
- ❖ **Cellular Adaptations** 34: Atrophy, 35; Hypertrophy, 36; Hyperplasia, 36; Metaplasia, 38; Dysplasia, 38
- ❖ **Pathogenesis of Cell Injury** 39: Pathogenesis of Ischaemic-Hypoxic Injury, 40; Ischaemic-Reperfusion and Free Radical-Mediated Cell Injury, 43; Stress Proteins in Cell Injury, 45; Pathogenesis of Chemical Injury, 45; Pathogenesis of Physical Injury, 45
- ❖ **Morphology of Cell Injury** 46: Morphology of Reversible Cell Injury, 46; Morphology of Irreversible Cell Injury (Cell Death), 48; Pathologic Calcification, 54
- ❖ **Programmed Cell Death** 56: Apoptosis, 57; Variants of Programmed Cell Death, 60; Autophagy, 60
- ❖ **Intracellular Accumulations** 62: Excessive Intracellular Accumulation of Normal Constituents, 62; Pigments, 64

Chapter 4: Inflammation and Repair

70

- ❖ **Definitions and General Features** 70
- ❖ **Acute Inflammatory Response** 71: Vascular Events, 71; Cellular Events, 73
- ❖ **Chemical Mediators of Inflammation** 77: Cell-Derived Mediators, 77; Plasma-Derived Mediators (Plasma Proteases), 81
- ❖ **Inflammatory Cells** 84
- ❖ **Acute Inflammation—Factors Determining Variation in Response, Morphologic Patterns, Systemic Effects, Outcome** 87: Factors Determining Variation in Response, 87; Morphologic Patterns of Acute Inflammation, 88; Systemic Effects of Acute Inflammation, 89; Outcome of Acute Inflammation, 89
- ❖ **Chronic Inflammation—Types and General Features** 90: General Features and Types of Chronic Inflammation, 90
- ❖ **Common Examples of Granulomatous Inflammation** 93: Tuberculosis, 93; Leprosy, 103; Syphilis, 107; Actinomycosis, 109; Sarcoidosis (Boeck's Sarcoid), 110
- ❖ **Tissue Repair—General Aspects** 112: Regeneration and Repair, 112; Factors Influencing Tissue Repair, 115
- ❖ **Selected Examples of Tissue Repair** 116: Healing of Skin Wounds, 116; Healing in Specialised Tissues, 118

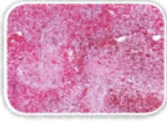

Chapter 5: Immunopathology Including Amyloidosis

121

- ❖ **Normal Immune System** 121: Types of Immunity, 121; Organs and Cells of Immune System, 123; Cytokines as Immune Modulators, 126
- ❖ **Major Histocompatibility Complex and Transplantation** 127: Transplantation, 128

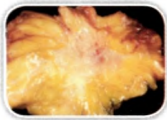

- ❖ **Immunodeficiency Diseases 130:** Primary Immunodeficiency Diseases, 130; Acquired Immunodeficiency Syndrome (AIDS), 132
- ❖ **Hypersensitivity Reactions (Immunologic Tissue Injury) 139:** Type I: Anaphylactic (Atopic) Hypersensitivity, 140; Type II: Antibody-Mediated (Cytotoxic) Hypersensitivity, 141; Type III: Immune Complex-Mediated Hypersensitivity, 142; Type IV: Delayed (Cell-Mediated) Hypersensitivity, 143
- ❖ **Autoimmune Diseases 144:** Immune Tolerance, 144; Pathogenesis of Autoimmunity, 145; Types and Examples of Autoimmune Diseases, 146
- ❖ **Amyloidosis 152:** Physical and Chemical Characteristics, 152; Classification of Amyloidosis, 153; Pathogenesis of Amyloidosis, 156; Staining Characteristics of Amyloid, 157; Morphology of Amyloidosis of Organs, 158; Diagnosis and Prognosis of Amyloidosis, 160

Chapter 6: Derangements of Homeostasis and Haemodynamics

163

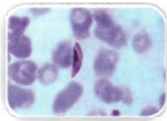

- ❖ **Homeostasis 163:** Gibbs-Donnan Equilibrium, 164; Acid-Base Balance, 164; Pressure Gradients and Fluid Exchanges, 164
- ❖ **Derangements of Body Water 165:** Oedema and Effusions, 165; Dehydration, 172; Overhydration, 172
- ❖ **Disturbances of Electrolytes and pH of Blood 172**
- ❖ **Haemodynamic Derangements 174:** Disturbances in the Volume of Circulating Blood, 174; Obstructive Circulatory Disturbances, 183

Chapter 7: Neoplasia

198

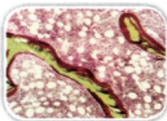

- ❖ **Nomenclature and Classification 198**
- ❖ **Characteristics of Tumours 199:** Rate of Growth, 199; Cancer Phenotype and Stem Cells, 201; Clinical and Gross Features, 201; Microscopic Features, 202; Spread of Tumours, 206
- ❖ **Epidemiology of Cancer 210:** Cancer Incidence, 211; Predisposing Factors, 211; Acquired Predisposing Diseases, 212; Predisposing Hormones, 213
- ❖ **Molecular Basis of Cancer 214:** Theories of Carcinogenesis, 214; Basic Concept of Molecular Carcinogenesis, 215; Molecular Hallmarks of Cancer, 215
- ❖ **Carcinogens and Carcinogenesis 226:** A. Chemical Carcinogenesis, 227; B. Physical Carcinogenesis, 230; C. Biological Carcinogenesis, 232
- ❖ **Clinical Aspects of Neoplasia 239:** Clinical Effects of Tumour on Host, 239; Grading, Staging, and Prognostic Factors, 241; Pathologic Diagnosis of Tumours, 242

Chapter 8: Infectious Diseases

248

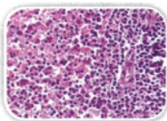

- ❖ **General Considerations 248**
- ❖ **Bacterial Diseases 250:** Plague, 250; Anthrax, 251; Whooping Cough (Pertussis), 252; Donovanosis, 253; Lymphogranuloma Venereum, 253; Cat-Scratch Disease, 253; Staphylococcal Infections, 253; Streptococcal Infections, 254; Clostridial Diseases, 254; Lyme Disease, 255
- ❖ **Fungal Diseases 256:** Mycetoma, 256; Candidiasis, 256; Cutaneous Superficial Mycosis, 257
- ❖ **Viral Diseases 257:** Viral Haemorrhagic Fevers, 258; Influenza Virus Infections, 259; Varicella Zoster Virus Infection, 260; Herpes Simplex Virus Infection, 260; Rabies, 260; Polio, 260
- ❖ **Parasitic Diseases 261:** Amoebiasis, 261; Malaria, 262; Babesiosis, 262; Filariasis, 263; Cysticercosis, 264
- ❖ **Torch Complex 264**
- ❖ **Microbial Bioterrorism 265**

Chapter 9: Environmental and Nutritional Diseases

267

- ❖ **Environmental Diseases 267:** Environmental Pollution, 267; Chemical and Drug Injury, 269; Injury By Physical Agents, 273
- ❖ **Nutritional Diseases 273:** Obesity, 274; Starvation, 275; Protein-Energy Malnutrition, 276; Metals and Trace Elements, 276; Disorders of Vitamins, 277; Diet and Cancer, 285

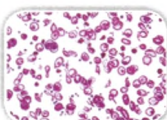

Chapter 10: Genetic and Paediatric Diseases

287

- ❖ **Genetic Diseases 287:** Developmental Defects, 287; Cytogenetic (Karyotypic) Abnormalities, 288; Mendelian Disorders, 290
- ❖ **Paediatric Diseases 295:** Non-neoplastic Conditions of Infancy and Childhood, 295; Tumours of Infancy and Childhood, 296

SECTION II HAEMATOPOIETIC AND LYMPHORETICULAR SYSTEM

Chapter 11: Introduction to Haematopoietic System and Disorders of Erythroid Series

299

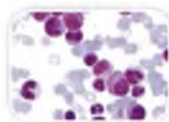

- ❖ **Bone Marrow and Haematopoiesis 299:** Haematopoietic Organs, 299; Haematopoietic Stem Cells, 299; Bone Marrow Examination, 300
- ❖ **Erythropoiesis 302:** Erythropoietin, 302; Erythroid Series, 302; The Red Cell, 303; Nutritional Requirements for Erythropoiesis, 304

- ❖ **Anaemia—General Considerations 306:** Pathophysiology, 306; General Clinical Features, 306; General Scheme of Investigations of Anaemia, 307; Classification of Anaemias, 309
- ❖ **Hypochromic Anaemias 309:** Iron Deficiency Anaemia, 309; Sideroblastic Anaemia, 314; Anaemia of Chronic Disorders, 316
- ❖ **Megaloblastic Anaemias 317:** Megaloblastic Anaemia Due to Nutritional Vitamin B₁₂ and Folate Deficiency, 317; Pernicious Anaemia, 323
- ❖ **Haemolytic Anaemias and Anaemia Due to Blood Loss 324:** General Considerations, 324; Acquired Haemolytic Anaemias, 325; Hereditary Haemolytic Anaemias, 329; Anaemia Due to Blood Loss, 339
- ❖ **Aplastic Anaemia and Other Primary Bone Marrow Disorders 339:** Aplastic Anaemia, 340; Myelophthitic Anaemia, 341; Pure Red Cell Aplasia, 341

Chapter 12: Haemostatic System, Bleeding Disorders and Transfusion Biology 343

- ❖ **Haemostatic System 343:** Thrombopoiesis, 343; Mechanism of Haemostasis, 344; Tests for Haemostatic Function, 344
- ❖ **Bleeding Disorders 347:** Vascular Bleeding Disorders, 347; Bleeding Due to Platelet Disorders, 348; Bleeding Due to Coagulation Disorders, 351; Disseminated Intravascular Coagulation (DIC), 353
- ❖ **Transfusion Biology 355:** Blood Group Antigens and Antibodies, 355; Transfusion Process, 356; Blood Components, 356; Complications of Blood Transfusion, 356; Haemolytic Disease of Newborn, 357

Chapter 13: White Blood Cells—Proliferations and Myeloid Neoplasms 359

- ❖ **White Blood Cells—Normal and Reactive Proliferations 359:** Granulopoiesis, 359; Lymphopoiesis, 361; Mature Leucocytes in Health and Pathologic Variation, 361; Infectious Mononucleosis, 365; Leukaemoid Reactions, 367
- ❖ **Haematolymphoid Malignancies—General Considerations 368:** Classification Schemes, 368; Etiology of Haematolymphoid Neoplasms, 369; Pathogenesis, 369
- ❖ **Myeloid Neoplasms 370:** Myeloproliferative Neoplasms, 370; Acute Myeloid Leukaemia, 375; Myelodysplastic Syndromes, 379

Chapter 14: Diseases of Lymphoid Cells of Blood and Lymphoreticular Organs 382

- ❖ **Normal and Reactive Lymphadenitis 382:** Normal Structure, 382; Reactive Lymphadenitis, 383
- ❖ **Common Lesions of the Spleen 385:** Splenic Enlargement, 385; Splenectomy and Splenic Rupture, 386; Splenic Tumours, 387
- ❖ **Common Diseases of the Thymus 387:** Structural and Functional Changes, 387; Thymic Tumours (Thymomas), 387
- ❖ **Lymphoid and Histiocytic Neoplasms—General Considerations 388:** Basis of Classification, 388; Classification Schemes, 388; Common to All Lymphoid Neoplasms, 391
- ❖ **Precursor (Immature) Lymphoid Neoplasms 392:** Acute Lymphoblastic Leukaemia/Lymphoma (ALL/LBL), 392
- ❖ **Mature B-Cell Neoplasms 394**
- ❖ **Mature T and NK-Cell Neoplasms 398**
- ❖ **Hodgkin's Lymphoma 399**
- ❖ **Plasma Cell Disorders 404:** Multiple Myeloma, 404; Localised Plasmacytoma, 407; Waldenström's Macroglobulinaemia, 407; Heavy Chain Diseases, 408; Monoclonal Gammopathy of Undetermined Significance (MGUS), 408
- ❖ **Histiocytic and Dendritic Cell Neoplasms 408:** Langerhans Cell Histiocytosis (LCH), 408

SECTION III SYSTEMIC PATHOLOGY

Chapter 15: Blood Vessels and Lymphatics 411

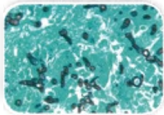

- ❖ **Normal Structure 411**
- ❖ **Arteriosclerosis 412:** Senile Arteriosclerosis, 412; Hypertensive Arteriolosclerosis, 412; Mönckeberg's Arteriosclerosis (Medial Calcific Sclerosis), 414; Atherosclerosis, 414
- ❖ **Vasculitis 422:** I. Infectious Arteritis, 422; II. Noninfectious Arteritis, 423
- ❖ **Aneurysms 427:** Atherosclerotic Aneurysms, 427; Syphilitic (Luetic) Aneurysms, 428; Dissecting Aneurysms and Cystic Medial Necrosis, 428; Fibromuscular Dysplasia, 430
- ❖ **Common Non-neoplastic Diseases of Veins 430:** Varicosities, 430; Phlebothrombosis and Thrombophlebitis, 430
- ❖ **Common Non-neoplastic Diseases of Lymphatics 431:** Lymphangitis, 431; Lymphoedema, 431
- ❖ **Tumours and Tumour-Like Lesions 432:** A. Benign Tumours, 432; B. Malformations and Reactive Proliferations, 434; C. Intermediate Grade Tumours, 434; D. Malignant Tumours, 435

Chapter 16: The Heart 438

- ❖ **Normal Structure 438**
- ❖ **Heart Failure 440:** Etiology, 440; Types of Heart Failure, 440; Compensatory Mechanisms: Cardiac Hypertrophy and Dilatation, 443
- ❖ **Congenital Heart Disease 445:** Malpositions of the Heart, 445; Shunts (Cyanotic Congenital Heart Disease), 445; Obstructions (Obstructive Congenital Heart Disease), 448

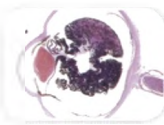

- ❖ **Ischaemic Heart Disease 449:** Etiopathogenesis, 449; Effects of Myocardial Ischaemia, 451; Myocardial Infarction and Stem Cells, 459
- ❖ **Rheumatic Fever and Rheumatic Heart Disease 460:** Incidence, 460; Etiopathogenesis, 460; Clinical Features, Diagnosis and Prognosis, 465
- ❖ **Non-rheumatic Endocarditis 466:** Atypical Verrucous (Libman-Sacks) Endocarditis, 466; Non-bacterial Thrombotic (Cachectic, Marantic) Endocarditis, 466; Infective (Bacterial) Endocarditis, 467; Specific Types of Infective Endocarditis, 470
- ❖ **Valvular Diseases and Deformities 471:** Mitral Stenosis, 471; Mitral Insufficiency, 471; Aortic Stenosis, 472; Aortic Insufficiency, 472; Carcinoid Heart Disease, 473; Myxomatous Degeneration of Mitral Valve (Mitral Valve Prolapse), 473
- ❖ **Other Myocardial Diseases 474:** Myocarditis, 474; Cardiomyopathy, 476
- ❖ **Pericardial Diseases 479:** Pericardial Fluid Accumulations, 479; Pericarditis, 479
- ❖ **Tumours of the Heart 481**
- ❖ **Pathology of Cardiovascular Interventions 482**

Chapter 17: The Respiratory System

484

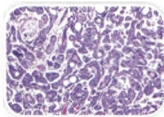

- ❖ **Normal Structure of Lungs 484**
- ❖ **Congenital Anomalies 486**
- ❖ **Respiratory Distress Syndrome 487**
- ❖ **Pulmonary Vascular Disease 489**
- ❖ **Pulmonary Infections 491:** Pneumonias, 491; Lung Abscess, 499
- ❖ **Chronic Obstructive Pulmonary Disease 501:** Chronic Bronchitis, 501; Emphysema, 502; Bronchial Asthma, 505; Bronchiectasis, 507; Small Airways Disease, 508
- ❖ **Chronic Restrictive Lung Disease 509:** Pneumoconioses, 510; ILDs Associated with Connective Tissue Diseases, 516; ILDs of Unknown Cause with Predominant Fibrosis, 516; ILDs Associated with Immunologic Lung Diseases, 517; ILDs Associated with Smoking, 519
- ❖ **Tumours of Lungs 520:** Lung Cancer, 520; Other Lung Tumours, 526
- ❖ **Diseases of Pleura 528:** Inflammations, 528; Non-inflammatory Pleural Effusions, 528; Pneumothorax, 528; Tumours of Pleura, 529

Chapter 18: The Eye, ENT and Neck

531

- ❖ **Eye 531:** Congenital Lesions, 532; Inflammatory Conditions, 532; Vascular Lesions, 533; Miscellaneous Conditions, 534; Tumours and Tumour-Like Lesions, 535
- ❖ **Ear 538:** Inflammatory and Miscellaneous Lesions, 538; Tumours and Tumour-Like Lesions, 539
- ❖ **Nose and Paranasal Sinuses 539:** Inflammatory Conditions, 540; Tumours, 541
- ❖ **Pharynx 542:** Inflammatory Conditions, 542; Tumours, 542
- ❖ **Larynx 543:** Inflammatory Conditions, 543; Tumours, 544
- ❖ **Neck 545:** Cysts of Neck, 545; Tumours, 546

Chapter 19: The Oral Cavity and Salivary Glands

547

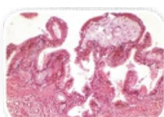

- ❖ **Oral Soft Tissues 547:** Developmental Anomalies, 547; Mucocutaneous Lesions, 547; Inflammatory and Pigmentary Diseases, 548; Tumours and Tumour-Like Lesions, 548
- ❖ **Teeth and Periodontal Tissues 553:** Inflammatory Diseases, 553; Odontogenic Cysts, 554; Odontogenic Tumours, 556
- ❖ **Salivary Glands 558:** Inflammatory and Salivary Flow Diseases, 558; Tumours of Salivary Glands, 559

Chapter 20: The Gastrointestinal Tract

564

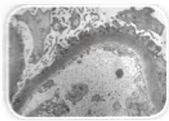

- ❖ **Oesophagus 564:** Congenital Anomalies, 564; Muscular Dysfunctions, 565; Inflammatory Diseases, 566; Oesophageal Tumours, 567
- ❖ **Stomach 569:** Congenital Anomalies, 570; Inflammatory Conditions, 571; Gastric Tumours and Tumour-Like Lesions, 578; Haematemesis, 584
- ❖ **Small Intestine 585:** Congenital Anomalies, 586; Intestinal Obstruction, 586; Ischaemic Bowel Disease, 587; Inflammatory Bowel Disease (Crohn's Disease and Ulcerative Colitis), 590; Infective and Other Enterocolitis, 594; Malabsorption Syndrome, 599; Small Intestinal Tumours, 601
- ❖ **Appendix 603:** Appendicitis, 604; Tumours of Appendix, 605
- ❖ **Large Bowel 605:** Congenital and Miscellaneous Non-neoplastic Conditions, 606; Colorectal Polyps and Tumours of Large Bowel, 608
- ❖ **Peritoneum 617**

Chapter 21: The Liver, Biliary Tract and Exocrine Pancreas

619

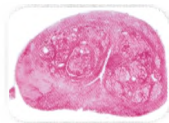

- ❖ **Liver 619:** Liver Cell Necrosis, 620; Liver Function Tests, 621; Jaundice, 624; Hepatic Failure, 629; Circulatory Disturbances, 631; Viral Hepatitis, 632; Other Infections, 641; Chemical and Drug Injury, 644; Cirrhosis, 645; Hepatic Tumours and Tumour-Like Lesions, 658
- ❖ **Biliary Tract 664:** Cholelithiasis (Gallstones), 664; Cholecystitis, 667; Tumours of Biliary Tract, 669
- ❖ **Exocrine Pancreas 671:** Developmental Anomalies, 671; Pancreatitis, 672; Tumours and Tumour-Like Lesions, 674

Chapter 22: The Kidney and Lower Urinary Tract

677

- ❖ **Normal Structure of the Kidney** 677
- ❖ **Renal Function Tests** 680
- ❖ **Renal Failure** 682
- ❖ **Congenital Malformations** 685: Cystic Diseases of Kidney, 685
- ❖ **Glomerular Diseases** 688: Definition and Classification, 688; Clinical Manifestations, 688; Pathogenesis of Glomerular Injury, 690; Specific Types of Primary Glomerulonephritis, 693; Secondary Glomerular Diseases, 706
- ❖ **Tubular and Tubulointerstitial Diseases** 708: Acute Tubular Necrosis, 708; Tubulointerstitial Diseases, 711
- ❖ **Obstructive Uropathy** 715: Nephrolithiasis, 715; Hydronephrosis, 717
- ❖ **Renal Vascular Diseases** 718: Hypertension Vascular Disease, 718; Thrombotic Microangiopathy, 723; Renal Cortical Necrosis, 723
- ❖ **Tumours of the Kidney** 723: Benign Tumours, 723; Malignant Tumours, 724
- ❖ **Lower Urinary Tract** 728: Congenital Anomalies, 728; Inflammation, 729; Tumours of Lower Urinary Tract, 730

Chapter 23: The Male Reproductive System and Prostate

735

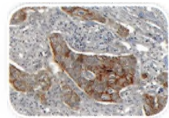

- ❖ **Testis and Epididymis** 735: Developmental Disorders, 736; Inflammatory Diseases, 737; Miscellaneous Conditions, 738; Testicular Tumours, 739
- ❖ **Penis** 746: Developmental and Inflammatory Disorders, 746; Penile Tumours, 747
- ❖ **Prostate** 749: Prostatitis, 749; Nodular Hyperplasia, 750; Carcinoma of Prostate, 751

Chapter 24: The Female Genital Tract

755

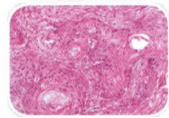

- ❖ **Vulva** 755: Normal Structure, 755; Miscellaneous Conditions, 755; Vulval Tumours, 756
- ❖ **Vagina** 758: Vaginitis and Vulvovaginitis, 758; Tumours and Tumour-Like Conditions, 758
- ❖ **Cervix** 759: Cervicitis, 759; Tumours and Tumour-Like Lesions, 760
- ❖ **Body Uterus (Myometrium and Endometrium)** 765: Effects of Hormones, 765; Endometritis and Myometritis, 767; Adenomyosis, 767; Endometriosis, 767; Endometrial Hyperplasias, 768; Tumours of Endometrium and Myometrium, 770
- ❖ **Fallopian Tubes** 774: Inflammations, 774; Ectopic Tubal Pregnancy, 775; Tumours and Tumour-Like Lesions, 775
- ❖ **Ovaries** 775: Non-neoplastic Cysts, 776; Ovarian Tumours, 776
- ❖ **Placenta** 788: Hydatidiform Mole, 788; Choriocarcinoma, 790

Chapter 25: The Breast

792

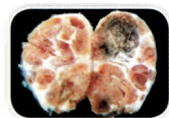

- ❖ **Normal Structure** 792
- ❖ **Inflammatory Conditions** 793
- ❖ **Benign Epithelial Proliferations** 794: Fibrocystic Lesions, 794; Gynaecomastia, 796
- ❖ **Benign Fibroepithelial Tumours** 797: Fibroadenoma, 797; Phyllodes Tumour, 798; Intraductal Papilloma, 798
- ❖ **Carcinoma *In Situ* and Invasive Breast Cancer** 799: Risk (Epidemiologic) Factors, 799; Etiology and Pathogenesis, 799; Classification, 800; *In Situ* (Non-invasive) Carcinoma, 800; Invasive (Infiltrating) Breast Carcinoma, 802; Paget's Disease of the Nipple, 804; Grading, Staging and Prognosis, 805

Chapter 26: The Skin

808

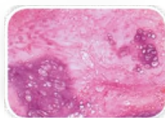

- ❖ **Normal Structure** 808: Common Histopathologic Terms, 809
- ❖ **Dermatoses** 810: Genetic Dermatoses, 810; Non-infectious Inflammatory Dermatoses, 810; Infectious Dermatoses, 811; Granulomatous Diseases, 814; Connective Tissue Dermatoses, 815; Non-infectious Bullous Dermatoses, 816; Scaling Dermatoses, 818; Metabolic Diseases of Skin, 819
- ❖ **Tumours and Tumour-Like Lesions** 820: Tumours and Cysts of the Epidermis, 820; Adnexal (Appendageal) Tumours, 825; Melanocytic Tumours, 826; Tumours of the Dermis, 829; Cellular Migrant Tumours, 830

Chapter 27: The Endocrine System

832

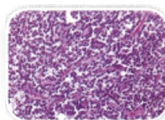

- ❖ **Basic Concept of Endocrines** 832: Neuroendocrine System, 832; Endocrine System, 832
- ❖ **Pituitary Gland** 834: Hyperpituitarism, 834; Hypopituitarism, 835; Pituitary Tumours, 836
- ❖ **Adrenal Gland** 837: Adrenocortical Hyperfunction (Hyperadrenalism), 838; Adrenocortical Insufficiency (Hypoadrenalism), 839; Tumours of Adrenal Glands, 840
- ❖ **Thyroid Gland** 842: Hyperthyroidism (Thyrotoxicosis), 843; Hypothyroidism, 843; Thyroiditis, 844; Graves' Disease (Diffuse Toxic Goitre), 846; Goitre, 847; Thyroid Tumours, 850
- ❖ **Parathyroid Glands** 857: Hyperparathyroidism, 858; Hypoparathyroidism, 858; Parathyroid Tumours, 859
- ❖ **Endocrine Pancreas** 859: Diabetes Mellitus, 860; Neuroendocrine Tumours (Islet Cell Tumours), 870
- ❖ **Miscellaneous Endocrine Tumours** 871

Chapter 28: The Musculoskeletal System

872

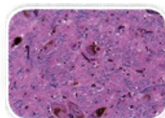

- ❖ **Bones and Cartilage** 872: Infection, Necrosis, Fracture Healing, 873; Disorders of Bone Growth and Development, 876; Metabolic and Endocrine Bone Diseases, 877; Paget's Disease of Bone (Osteitis Deformans), 880; Tumour-Like Lesions of Bone, 880; Tumours of Bone and Cartilage, 883
- ❖ **Joints** 893: Degenerative Joint Disease (Osteoarthritis), 893; Inflammatory Joint Diseases, 894
- ❖ **Skeletal Muscles** 899: Myopathic Diseases (Myopathies), 900; Neuromuscular Diseases, 901; Inflammatory Myopathies, 902

Chapter 29: Soft Tissue Tumours

904

- ❖ **General Features and Classification** 904
- ❖ **Adipocytic Tumours** 907
- ❖ **Fibroblastic and Myofibroblastic Tumours** 909
- ❖ **So-Called Fibrohistiocytic Tumours** 912
- ❖ **Skeletal Muscle Tumours** 912
- ❖ **Tumours of Uncertain Differentiation** 914
- ❖ **Undifferentiated/Unclassified Sarcomas** 915

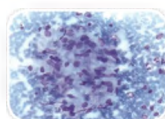

Chapter 30: The Nervous System

917

- ❖ **Central Nervous System** 917: Developmental Anomalies and Hydrocephalus, 919; Infections of CNS, 921; Cerebrovascular Diseases, 926; Demyelinating, Degenerative, Metabolic and Nutritional Diseases, 931; Tumours of the CNS, 934
- ❖ **Peripheral Nervous System** 940: Pathologic Reactions to Injury, 941; Peripheral Neuropathy, 941; Nerve Sheath Tumours, 942

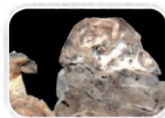

APPENDICES

Appendix I: Basic Diagnostic Cytopathology

947

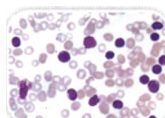

- ❖ **Overview** 947: Role and Applications of Diagnostic Cytopathology, 947; Branches of Diagnostic Cytopathology, 948
- ❖ **Exfoliative Cytopathology** 949: Gynaecologic Exfoliative Cytopathology, 949; Non-gynaecologic Exfoliative Cytopathology, 953; Techniques in Exfoliative Cytopathology, 956
- ❖ **Interventional Cytopathology** 958: Fine Needle Aspiration Cytopathology, 958; Imprint Cytopathology, 963; Crush Smear Cytopathology, 963; Biopsy Sediment Cytopathology, 963

Appendix II: Answers and Discussion of Clinical Cases: Bridging Pathology with Medicine

965

- ❖ **Preamble**, 965
- ❖ **Case Discussion and Explanation (Case 1 to 35)** 965-977

Appendix III: Normal Values

978

- ❖ **Weights and Measurements of Normal Organs** 978
- ❖ **Laboratory Values of Clinical Significance** 979
