Contents

1. Oral lesion description. Elementary lesions	9
1.1 Oral lesion description	9
1.2 Elementary lesions	11
1.3 Practice.....	16
2. Diagnosis and differential diagnosis in oral pathology	21
2.1 Steps to diagnosis.....	21
2.2 Diagnosis and differential diagnosis	21
2.2.1 Color changes.....	23
2.2.2 Surface alterations.....	27
2.3 Practice.....	31
3. Surface lesions of oral mucosa - Color changes - White lesions	33
3.1 White lesions that can be scraped off	33
3.1.1 Infectious lesions	33
3.1.2 Lesions caused by physical and chemical injuries	33
3.2 White lesions that can be scraped off slightly, with difficulty or can be scraped off partially - based on their etiology, are divided into.....	36
3.2.1 Lesions of uncertain cause.....	36
3.2.2 Infectious lesions	37
3.3 White lesions that can't be scraped off.....	37
3.3.1 Lesions caused by physical and chemical injuries	38
3.3.2 Lesions of uncertain cause.....	41
3.3.3 Infectious lesions	42
3.3.4 Hereditary lesions	44
3.3.5 Immunologically mediated conditions.....	45
3.4 Practice.....	47
4. Surface lesions of oral mucosa - Color changes - White lesions and red lesion	57
4.1 Lesions of uncertain cause.....	57
4.1.1 Erythema migrans, geographic tongue, benign migratory glossitis, wandering rash of the tongue, erythema areata migrans, stomatitis areata migrans	57
4.1.2 Erythroleukoplakia, speckled leukoplakia	58
4.2 Infectious lesions.....	59
4.2.1 Candidiasis, candidosis.....	59
4.2.2 Scarlet fever, scarlatina.....	60
4.3 Physical and chemical injuries	61
4.3.1 Burns.....	61
4.3.2 Actinic cheilosis, actinic cheilitis, solar cheilosis, "farmer's lip", "sailor's lip"	62
4.3.3 Allergic contact stomatitis from cinnamon flavoring	63
4.3.4 Nicotine stomatitis	63
4.4 Immunologically mediated conditions.....	63
4.4.1 Lichen planus.....	63
4.4.2 Lupus erythematosus	64
4.5 Practice.....	64
5. Surface lesions of oral mucosa - Color changes - red lesions.....	69

5.1 Physical and chemical injuries	69
5.1.1 Thermal burns.....	69
5.1.2 Plasma cell gingivitis, atypical gingivostomatitis.....	70
5.2 Infectious lesions	70
5.2.1 Denture stomatitis, chronic atrophic candidiasis (denture sore mouth).....	70
5.2.2 Erythematous candidiasis.....	71
5.2.3 Scarlet fever.....	72
5.3 Lesions of uncertain cause	73
5.3.1 Erythema migrans, geographic tongue, benign migratory glossitis, wandering rash of the tongue, erythema areata migrans, stomatitis areata migrans.....	73
5.3.2 Erythroplasia, erythroplakia.....	73
5.3.3 Anemia - iron-deficiency anemia.....	73
5.3.4 Hemangioma.....	74
5.3.4.1 Sturge-Weber Syndrome or encephalotrigeminal angiomatosis.....	75
5.3.4.2 Hereditary hemorrhagic telangiectasia, Rendu-Osler-Weber.....	75
5.4 Practice	76
6. Surface lesions of oral mucosa - Color changes - Petechial, ecchymotic and telangiectatic lesions	81
6.1 Nonspecific trauma	81
6.2 Idiopathic thrombocytopenic purpura	81
6.3 Leukemia	82
6.4 Hereditary hemorrhagic telangiectasia, Rendu-Osler-Weber Syndrome	82
6.5 Practice	83
7. Surface lesions of oral mucosa - Color changes - Blue and/or purple lesions	84
7.1 Localized	84
7.1.1 Melanin associated lesions.....	84
7.1.2 Non-melanin associated lesions, endogenous, blood-related pigmentations, intravascular.....	87
7.1.3 Non-melanin associated lesions, exogenous.....	92
7.2 Generalized	94
7.2.1 Hereditary, racial, ethnic, physiologic pigmentation.....	94
7.2.2 Pregnancy.....	95
7.2.3 Addison disease.....	95
7.2.4 Peutz-Jeghers syndrome.....	95
7.2.5 Smoker's melanosis.....	96
7.2.6 Heavy metal ingestion.....	96
7.2.7 Medications.....	97
7.2.8 Neurofibromatosis, von Recklinghausen disease of skin.....	98
7.3 Practice	98
8. Surface lesions of oral mucosa - Color changes - Brown, gray and / or black lesions	108
8.2 Melanin associated lesions	108
8.1.1 Pigmented lesions of the oral mucosa and perioral tissues.....	108
8.1.2 Systemic disorders associated with the presence of oral pigmented melanocytic lesions.....	109
8.1.3 Drug ingestion associated with the presence of oral pigmented melanocytic lesions.....	110
8.2 Non-melanin associated lesions, exogenous	110

8.2.1 Tattoos	110
8.2.2 Systemic metallic intoxication: heavy metal poisoning.....	110
8.2.3 Black / brown hairy tongue.....	112
8.3 Practice.....	112
9. Surface lesions of oral mucosa - Color changes - yellow lesions.....	116
9.1 Fordyce granules	116
9.2 Superficial abscess – parulis.....	116
9.3 Accessory lymphoid aggregate.....	116
9.4 Lymphoepithelial cyst.....	117
9.5 Lipoma	117
9.6 Practice.....	118
10. Surface alterations - ulcerative lesions, acute, with short duration and sudden onset.....	120
10.1 Lesions caused by physical and chemical injuries.....	120
10.1.1 Traumatic ulcer.....	120
10.1.2 Mucosal burns – thermal or chemical.....	121
10.2 Lesions of uncertain cause.....	123
10.2.1 Aphthous stomatitis, canker sores, recurrent aphthous stomatitis, RAS	123
10.2.2 Behçet syndrome	125
10.3 Infectious lesions.....	125
10.3.1 Necrotizing ulcerative gingivitis (NUG)	125
10.3.2 Primary syphilis	126
10.4 Practice.....	126
11. Surface alterations - vesiculo-erosive lesions, acute, with short duration and sudden onset.....	130
11.1 Infectious lesions - viral infections.....	130
11.1.1 Primary herpetic gingivostomatitis, acute herpetic gingivostomatitis, primary herpes.....	130
11.1.2 Recurrent herpes labialis, secondary herpes, recrudescence herpes, “cold sore” or “fever blister”	131
11.1.3 Herpangina.....	132
11.1.4 Varicella (chickenpox).....	133
11.1.5 Herpes zoster, shingles	133
11.1.6 Hand-foot-and-mouth disease.....	134
11.1.7 Infectious mononucleosis	135
11.2 Lesions of uncertain cause.....	135
11.2.1 Erythema multiforme/Stevens-Johnson syndrome	135
11.2.2 Stevens-Johnson syndrome.....	136
11.3 Chemical injuries	136
11.4 Practice.....	137
12. Surface alterations - ulcerative lesions, chronic, with long duration.....	142
12.1 Immunologically mediated conditions.....	142
12.1.1 Erosive lichen planus	142
12.1.2 Lupus erythematosus	143
12.2 Physical injuries	143
12.3 Lesions of uncertain cause.....	143
12.3.1 Wegener granulomatosis.....	143
12.3.2 Squamous cell carcinoma	144

12.4 Infectious lesions.....	144
12.5 Practice.....	146
13. Surface alterations – vesiculo-erosive lesions, chronic, with long duration	148
13.1 Autoimmune	148
13.1.1 Mucous membrane pemphigoid.....	148
13.1.2 Pemphigus vulgaris.....	149
13.1.3 Bullous pemphigoid.....	149
13.2 Hereditary.....	150
13.2.1 Epidermolysis bullosa.....	150
13.3 Contact stomatitis.....	150
13.4 Practice.....	151
14. Surface alterations – papillary growths, focal or diffuse	153
14.1 Lesions with uncertain cause.....	153
14.1.1 Hairy tongue	153
14.1.2 Leukoplakia - some variants: proliferative verrucous leukoplakia, granular or nodular leukoplakia	153
14.1.3 Squamous cell carcinoma	153
14.1.4 Verrucous carcinoma	154
14.1.5 Giant cell fibroma.....	155
14.2 Reactive lesions.....	155
14.2.1 Inflammatory papillary hyperplasia.....	155
14.3 HPV-associated lesions of the oral cavity.....	156
14.3.1 Papilloma, squamous papilloma	156
14.3.2 Verruca vulgaris, common wart.....	156
14.3.3 Condyloma acuminatum, venereal wart	157
14.3.4 Multifocal epithelial hyperplasia	157
14.4 Infectious lesions.....	158
14.4.1 Hairy leukoplakia.....	158
14.5 Hereditary lesions.....	158
14.5.1 Darier's disease.....	158
14.6 Practice.....	158
15. Surface alterations – masses and enlargements – soft tissue masses	163
15.1 Traumatic lesions	163
15.1.1 Mucocele, mucus extravasation phenomenon, mucus escape reaction.....	163
15.1.2 Ranula.....	164
15.1.3 Fibroma: epulis fissuratum (inflammatory fibrous hyperplasia) and irritation fibroma	164
15.1.4 Pyogenic granuloma, lobular capillary hemangioma.....	165
15.1.5 Peripheral ossifying fibroma, peripheral fibroma, ossifying fibroid epulis, peripheral fibroma with calcification, calcifying fibroblastic granuloma.....	165
15.1.6 Peripheral giant cell granuloma, giant cell epulis	166
15.1.7 Fibroepithelial polyp or leaf-like denture fibroma.....	166
15.2 Lesions with uncertain cause.....	166
15.2.1 Squamous cell carcinoma	166
15.2.2 Other mesenchymal tumors	166
15.3 Developmental lesions	168
15.4 Inflammatory lesions	168
15.4.1 Hyperplastic lymph node.....	168

15.4.2 Parulis	168
15.4.3 Palatal abscess	169
15.4.4 Periodontal abscess.....	169
15.5 Infectious lesions.....	169
15.5.1 Kaposi sarcoma.....	169
15.6 Practice.....	169
16. Surface alterations – masses and enlargements – generalized gingival enlargement.....	172
16.1 Hyperplastic gingivitis	172
16.2 Drug-related gingival hyperplasia, drug-related gingival overgrowth	172
16.3 Gingival fibromatosis.....	173
16.4 Leukenic infiltrate.....	173
16.5 Wegener granulomatosis	173
16.6 Scurvy Vitamin C deficiency – scorbutic gingivitis.....	173
16.7 Practice.....	174
ANSWERS	176
