

Clinical Medicine *for* Optometrists

David M. Shein
Rachel C. Druckenbrod
with
Thomas F. Freddo

Clinical Medicine for Optometrists

EDITORS

DAVID M. SHEIN, MD

Primary Care Physician, Wellesley Internal Medicine
Wellesley, Massachusetts
Physician, Department of Medicine, Mount Auburn Hospital
Cambridge, Massachusetts
Assistant Professor in Medicine, Harvard Medical School
Adjunct Associate Professor of Medicine,
New England College of Optometry
Boston, Massachusetts

RACHEL C. DRUCKENBROD, OD, FAAO

Attending Optometrist, VA Boston Healthcare System
Adjunct Assistant Professor of Optometry,
New England College of Optometry
Boston, Massachusetts

ASSOCIATE EDITOR

THOMAS F. FREDDO, OD, PHD, FAAO

Professor of Ophthalmology, Pathology, Anatomy and Neurobiology
(Emeritus)
Former Director of the Eye Pathology Laboratory, Boston University
School of Medicine
Boston, Massachusetts
Professor, MCP Health Sciences University
Worcester, Massachusetts

Philadelphia • Baltimore • New York • London
Buenos Aires • Hong Kong • Sydney • Tokyo

Contents

Preface	vii
Acknowledgments	ix
Contributors	xi

CHAPTER 1: Evidence-Based Medicine and the Medical Literature 1

- Section 1: The Analysis of Medical Literature 2
 - Part 1 2
 - Study Design 2
 - Study Hypothesis 3
 - Significance 4
 - Size of the Effect 4
 - Relevance to Clinical Practice 6
 - Part 2: Clinical Examples 6
 - Randomized Controlled Trials 6
 - Cohort Studies 9
 - Meta-Analysis 10
 - Records Review 12
- Section 2: Principles of Laboratory Investigation 13
 - Reporting of Laboratory Values: Sensitivity and Specificity 13
 - Influential Factors on Laboratory Test Results 15
- The Concepts of Primary and Secondary Prevention 15

CHAPTER 2: Hypertension 17

- Section 1: Hypertension 17
- Epidemiology 17
 - Hypertension Pathophysiology 18
 - Definitions of Hypertension 23
- Diagnosis of Hypertension 23
 - Essential and Secondary Hypertension 25
 - Hypertensive Urgency and Emergency 28
- Clinical Impacts of Hypertension 28
- Hypertension Management 32
 - Prehypertension 32
 - Hypertension: Blood Pressure Treatment Goal 32
 - Barriers to Hypertension Treatment 33
 - Approach to Hypertension Treatment 33
 - Hypertension in the Modern Era of Cardiovascular Medicine 34

- Section 2: Cardiovascular Drug Therapy 35
- Angiotensin Agents 36
 - Clinical Effects and Indications 36
 - Adverse Effects 36
 - Monitoring on Therapy 37
- Beta-Blockers 37
 - Clinical Effects and Indications 38
 - Adverse Effects 38
 - Monitoring on Therapy 39
- Alpha-Blockers 39
 - Clinical Effects and Indications 39
 - Adverse Effects 40
 - Monitoring on Therapy 41
- Calcium Channel Blockers 41
 - Clinical Effects and Indications 41
 - Adverse Effects 42
 - Monitoring on Therapy 42
- Diuretics 42
 - Clinical Effects and Indications 43
 - Adverse Effects 44
 - Monitoring on Therapy 44

CHAPTER 3: Lipid Disorders, Atherosclerosis, Cardiovascular Diseases, and Cardiac Testing 47

- Section 1: Cardiac Testing 48
- Systolic and Diastolic Function 49
- Introduction to the Electrocardiogram 49
 - ECG Abnormalities 52
 - Conduction Blocks and Delays 52
 - Arrhythmias 55
 - Hypertrophy 57
 - Ischemia and Infarction 57
- Cardiac Testing 58
- The Cardiac Physical Exam 61
- Section 2: Lipid Disorders 62
- Cholesterol Homeostasis and Measurement 62
- Diagnosis of Dyslipidemias 65
- Ocular Manifestations of Dyslipidemia 66
- Treatment of Dyslipidemias 68
- Comorbid Risk Factors 69
- Drug Therapy for Dyslipidemia 69
- Aspirin Therapy 74
- Atherosclerosis 75
 - Risk Factor Assessment for Arteriosclerosis 77

- Clinical Manifestations of Atherosclerosis 77
 - Coronary Artery Disease 77
 - Cerebrovascular Disease 80
 - Carotid Artery Disease 80
 - Retinal Artery Occlusion 81
 - Peripheral Vascular Disease 82
- Overview of Risk Determination and Prevention 83

CHAPTER 4: Intrinsic Cardiovascular Disorders 89

- Section 1: Cardiac Valvular Disease 89
 - Aortic Valve Stenosis 91
 - Aortic Valve Insufficiency 92
 - Mitral Valve Stenosis 92
 - Mitral Valve Insufficiency 93
 - Marfan Syndrome 94
- Section 2: Cardiac Complications of Infectious Diseases 96
 - Rheumatic Fever 96
 - Infectious Endocarditis 97
- Section 3: Cardiomyopathy and Congestive Heart Failure 102
- Cardiomyopathy 102
- Congestive Heart Failure 104
- Cardiac Physiology 104
- Systolic and Diastolic Dysfunction 105
- Left and Right Heart Failure 106
- Treatments for Heart Failure 107
 - RAAS Inhibition 107
 - Diuretics 108
 - Beta Blockers 108
 - Fluid Optimization 108
- Section 4: Cardiac Arrhythmia and Embolic Stroke 108
 - Atrial and Ventricular Fibrillation 108

CHAPTER 5: Diabetes Mellitus 113

- Diabetes Classification 113
- Epidemiology of Diabetes 114
- Pathophysiology: Hormones and Glucose Homeostasis 116
 - Insulin Deficiency and Ketone Production 116
 - Insulin Resistance 116
 - Hypoglycemia 116
- Diagnosis and Medical Testing in Diabetes 117
- Common Tests in Diabetes 117
- Clinical Presentation of Diabetes 120
 - Type 1 Diabetes 120
 - Type 2 Diabetes 121
 - Gestational Diabetes 122

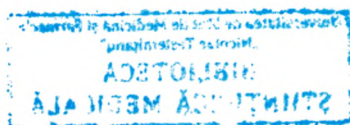

- Complications of Diabetes 122
- Microvascular Disease 124
 - Diabetic Retinopathy 124
 - Diabetic Cataract 127
 - Nephropathy 128
 - Neuropathy 128
- Macrovascular Disease 131
- Dermatological and Infectious Disease 131
- Treatment of Diabetes 132

CHAPTER 6: Endocrinology 141

- Section 1: Pituitary 141
 - Growth Hormone 145
 - Prolactin 147
 - Gonadotropins 147
 - Antidiuretic Hormone 150
- Section 2: Adrenal 151
 - Adrenal Cortex 152
 - Adrenal Insufficiency 154
 - Congenital Adrenal Hyperplasia 156
 - Adrenal Medulla 157
- Section 3: Thyroid 163
 - Hypothyroidism 165
 - Hyperthyroidism 167
 - Thyroid Eye Disease 167
 - Thyroid Cancer 172
- Section 4: Calcium and Osteoporosis 172
 - Hyper- and Hypocalcemia 175
 - Osteoporosis 177

CHAPTER 7: Gastroenterology 183

- Basics of GI Imaging And Therapy 183
- Testing in Gastroenterology 183
- Acid-Suppressing Therapy 186
- Gastrointestinal Illness 187
- Peptic Ulcer Disease 187
 - Description and Pathogenesis 187
 - *Helicobacter pylori* and Peptic Ulcer Disease 187
 - Nonsteroidal Anti-Inflammatory Drugs and Peptic Ulcer Disease 188
 - Clinical Manifestations 189
 - Diagnosis 189
 - Prognosis and Treatment 189
- Inflammatory Bowel Disease 189
 - Description and Pathogenesis 189
 - Clinical Manifestations 190

- o Extraintestinal Manifestations 191
- o Diagnosis 194
- o Prognosis and Treatment 194
- Celiac Disease and Gluten Intolerance 194
 - o Description and Pathogenesis 194
 - o Clinical Manifestations 195
 - o Diagnosis 196
 - o Prognosis and Treatment 197
 - o Nonceliac Gluten Sensitivity 197
- Functional Bowel Disease 197
 - o Description and Pathogenesis 197
 - o Clinical Manifestations 198
 - o Diagnosis 198
 - o Prognosis and Treatment 198

CHAPTER 8: Hematology and Oncology 201

- Section 1: Hematology 202
 - o Red Blood Cells 202
 - o White Blood Cells 203
 - o Platelets 204
- Lab Testing in Hematology 204
- Diseases of Formed Elements of the Blood 207
 - o Disorders of Red Blood Cells 208
 - o Erythroid Aplasia 216
 - o White Blood Cells 218
 - o Platelets 224
- Clotting Pathways 225
- Section 2: Oncology 227
- Cancer Epidemiology 228
- Cancer Screening 229
- Cancer Risk Factors 229
- Cancer Staging 230
- Cancer Treatment 231
 - o Surgery 231
 - o Radiation 231
 - o Radiation Toxicity 232
 - o Chemotherapy 234
 - *Chemotherapy Toxicity* 234
 - o Targeted Therapy 236
 - o Hormone Therapy 236
 - o Immunotherapy 236
- Prostate Cancer 236
- Breast Cancer 239
- Colorectal Cancer 242
- Cervical Cancer 245

772535

- Sarcoidosis 377
 - o Signs and Symptoms of Sarcoidosis 378
 - o Ocular Sarcoidosis 378
 - o Sarcoidosis Diagnosis 381
 - o Sarcoidosis Treatment 381
- Spondyloarthropathies 382
 - o Signs and Symptoms of Spondyloarthritis 382
 - o Ocular Spondyloarthritis 383
 - o Spondyloarthritis Diagnosis 384
 - o Spondyloarthritis Treatment 385
- Osteoarthritis 386
 - o Signs and Symptoms of Osteoarthritis 386
 - o Osteoarthritis Diagnosis 386
 - o Osteoarthritis Treatment 387
- Systemic Sclerosis 387
 - o Limited Systemic Sclerosis: Signs and Symptoms 387
 - o Diffuse Systemic Sclerosis: Signs and Symptoms 388
 - o Systemic Sclerosis Diagnosis 389
 - o Systemic Sclerosis Treatment 389

CHAPTER 12: Neurology 393

- Cerebrovascular Disease 393
- Approach to Vision Loss From Cerebrovascular Disease 396
 - o Vision Loss From Stroke 397
 - o Cerebrovascular Ophthalmoplegia 400
 - o Transient Monocular Vision Loss 403
 - o Retinal Artery Occlusion 403
 - o Anterior Ischemic Optic Neuropathy 405
 - o Posterior Ischemic Optic Neuropathy 407
- Bell Palsy 408
- Myasthenia Gravis 410
- Horner Syndrome 413
- Neoplasm 417
 - o Neoplastic Vision Loss 417
 - o Neoplastic Ophthalmoplegia 418
- Headache Syndromes 418
 - o Primary Headache Syndromes 418
 - Migraine 419
 - Retinal Migraine 422
 - Trigeminal Autonomic Cephalalgias 422
 - SUNCT and SUNA 422
 - Cluster Headache 423
 - Paroxysmal Hemicrania 423
 - Hemicrania Continua 424

- o Secondary Headache Syndromes 424
 - Headache Secondary to Elevated Intracranial Pressure 424
 - Headache Secondary to Vascular Disorders 430
 - Headache Secondary to Intracranial Mass Lesions 432
 - Headache Secondary to Disorders of the Eye 432
- Optic Neuritis 434
 - o Optic Neuritis and Multiple Sclerosis 436

CHAPTER 13: Dermatology 445

- Rosacea 445
 - o Diagnostic Phenotypes 447
 - o Ocular Rosacea 447
- Acne 448
- Dermatological Manifestation of Dyslipidemias 451
- Skin Cancer 452
 - o Basal Cell Carcinoma 452
 - o Cutaneous Squamous Cell Carcinoma 454
 - o Melanoma 457

CHAPTER 14: Pulmonary 467

- Section 1: Asthma and Allergic Disease 467
- Section 2: Chronic Obstructive Pulmonary Disease 472
- Section 3: Common Pulmonary Medications for Asthma and COPD 473
 - o Inhaled Corticosteroids 473
 - o Nasal Glucocorticoids 474
 - o β -Adrenergic Agonists 474
 - o Muscarinic Antagonists 475
 - o Leukotriene Receptor Antagonists 475
- Section 4: Cystic Fibrosis 476

CHAPTER 15: Neuroimaging: Diagnostic Imaging of the Orbit and Visual Pathway 481

- Imaging Modalities and Basic Principles 481
 - o Computed Tomography 482
 - o Magnetic Resonance Imaging 482
 - o Imaging Planes 485
 - o Contrast Agents 485
- Basic Imaging Anatomy 486
- Imaging of Orbital Abnormalities 489
- Imaging of Sellar, Suprasellar, and Cavernous Sinus Abnormalities 498
- Brain Abnormalities 500
