Diagnostic Tests and Algorithms in Endocrinology

773644

Editura Medicală Universitară “Iuliu Hațieganu”
Cluj-Napoca
2022

Table of Contents

1	INTRODUCTORY NOTES	11
2	THE HYPOTHALAMUS AND PITUITARY GLAND	17
2.1	Approach for a Possible or Proven Pituitary or Hypothalamic Mass.....	19
2.1.1	Imaging modalities of the hypothalamo-pituitary region.....	19
2.1.2	Ophthalmological examination-Perimetry Test	26
2.1.3	Diagnosis of an overactive pituitary gland (hyperpituitarism): Is there a hormonal excess?	28
2.1.4	Diagnosis of hypopituitarism: Is there any hormone deficiency?.....	39
2.2	Growth and Puberty.....	46
2.2.1	Assessment of growth	46
2.2.2	Precocious puberty	52
2.2.3	Delayed Puberty or Absent Puberty	55
2.3	Thirst axis and Diabetes insipidus.....	58
3	THE THYROID GLAND.....	63
3.1	Tests of the Thyroid Function	63
3.2	Assessment of the Thyroid Iodine Metabolism and Biosynthetic Activity - Radioactive Iodine Uptake and Radionuclide Imaging	64
3.3	Thyroid Ultrasonography	71
3.4	Fine Needle Aspiration Biopsy	79
3.5	Other Investigations.....	79
3.6	Diagnostic Tests in Hyperthyroidism.....	80
3.7	Diagnostic Tests in Hypothyroidism	84
3.8	Thyroid Nodule and Thyroid Cancer: Diagnostic Tests.....	87
4	DISORDERS OF CALCIUM METABOLISM.....	92
4.1	Hypercalcemia: Diagnostic Tests	93
4.1.1	Investigations and differential diagnosis of hypercalcemia (PTH-dependent (primary hyperparathyroidism) and PTH-independent)	93
4.1.2	Imaging-Localization studies of abnormal parathyroid glands.....	95

4.1.3	Investigations aimed at determining the presence of end-organ damage from hypercalcemia for clinical decision-making reasons in primary hyperparathyroidism.	102
4.2	Hypocalcemia: Diagnostic Tests	105
4.3	Diagnostic Workup of Osteoporosis	110
5	THE ADRENAL GLANDS.....	113
5.1	Adrenocortical Insufficiency (ACI) (Addison’s disease).....	114
5.1.1	Establish the diagnosis of ACI.....	115
5.1.2	Diagnosis of primary and secondary forms of ACI	116
5.1.3	Tests for etiology.....	117
5.2	Cushing’s Syndrome	119
5.2.1	Confirming the presence of Cushing’s syndrome	119
5.2.2	Establishing the cause of Cushing’s syndrome	124
5.3	Primary Aldosteronism.....	131
5.3.1	Diagnostic tests in Primary Aldosteronism.....	131
5.4	Pheochromocytoma and Paraganglioma	135
5.4.1	Diagnostic Tests in PPGL	135
5.5	Incidental Adrenal Mass (‘incidentalomas’)	139
5.5.1	Endocrine evaluation.....	139
5.5.2	Exclusion of malignancy	139
5.5.3	Management	140
6	HYPOTALAMO–PITUITARY–GONADAL AXIS.....	142
6.1	Diagnostic Tests for Male Hypogonadism	143
6.2	Female Disorders.....	149
6.2.1	Evaluation (diagnostic tests) of primary amenorrhea	149
6.2.2	Evaluation (diagnostic tests) of secondary amenorrhea/oligomenorrhea	156
6.2.3	Hirsutism	162
7	REFERENCES.....	172
