Cuprins

I. Infection and Immunity

Pathogenesis	5
Bacterial pathogenesis	7
Host Defences Mechanisms	18
Immunity	18
Antigens	19
Antibodies	23
Lymphocytes	33
Major Histocompatibility Complex (MHC)	37
Cytokines	40
Natural Resistance	53
The Complement System	53
Phagocytosis	58
Inflammation	61
Hypersensitivity (Allergy)	65
References Infection and Immunity	67

II. Medical Bacteriology

Genus Bacillus	73
Genus Clostridium	78
Genus Corynebacterium	84
Genus Mycobacterium	89
Genus Staphylococcus	96
Genus Streptococcus	106
Group A Streptococci (<i>Streptococcus Pyogenes</i>)	109
Streptococcus Pneumoniae (Pneumococcus)	112
Genus Enterococcus	117
Genus Neisseria	119
Enterobacteriaceae	125

Genus Escherichia	128
Genus Shigella	130
Genus Salmonella	132
Genus Pseudomonas	136
Genus Campylobacter	142
Helicobacter Pylori	143
Genus Hemophilus	145
Genus Bordetella	147
Genus Legionella	149
Genus Brucella	151
Genus Chlamydophila	153
Genus Rickettsia	155
Genus Coxiella.....	157
Genus Mycoplasma	158
Order Spirochaetales	161
Genus Treponema	162
Genus Leptospira	164
Genus Borrelia	167
References Medical Bacteriology	170
III. Medical Virology	
Picornaviruses	173
Rhabdoviruses	179
Orthomyxoviruses	183
Paramyxoviruses	187
Retroviruses	189
Hepatitis Viruses and Hepatitis	194
Herpetoviruses	201
Adenoviruses	207
References Medical Virology	205
