## TABLE OF CONTENTS

|  |    |
|--|----|
| INTRODUCTION .....   | 9  |
| CHAPTER 1. VULNERABILITY HISTOLOGICAL FEATURES OF THE PERIODONTAL TISSUES.....                           | 11 |
| 1.1. Periodontal tissues – general aspects.....  | 11 |
| 1.2. Microscopic elements of vulnerability of the gingival mucosa.....                                   | 12 |
| 1.2.1. <i>The topography of the gingival mucosa</i> .....  | 12 |
| 1.2.2. <i>The microscopic aspect of the gingival mucosa</i> .....  | 12 |
| 1.2.3. <i>The microscopic aspect of the sulcular epithelium</i> .....                                    | 15 |
| 1.2.4. <i>The microscopic aspect of the junctional epithelium</i> .....                                  | 15 |
| 1.3. Root cementum.....  | 16 |
| 1.4. Periodontal ligament.....   | 18 |
| 1.5. Alveolar bone .....   | 20 |
| 1.6. Vascularization and innervation of the periodontium.....  | 20 |
| 1.7. The formation and development of the periodontium .....   | 21 |
| 1.8. Altered passive eruption .....  | 23 |
| CHAPTER 2. DENTAL PLAQUE.....  | 25 |
| 2.1. General aspects. Periodontitis as a polymicrobial infection .....                                   | 25 |
| 2.2. Oral habitat.....   | 26 |
| 2.3. Dental plaque (biofilm) formation.....  | 27 |
| 2.3.1. <i>Phases in dental plaque (biofilm) formation</i> .....  | 27 |
| 2.3.2. <i>Specific bacterial configurations in dental plaque</i> .....                                   | 29 |
| 2.3.3. <i>The extracellular matrix of dental plaque</i> .....  | 29 |
| 2.4. Dental plaque as a biofilm and the consequences of living in a bacterial community..                | 30 |
| 2.5. Subgingival microbiota associated with different periodontal conditions.....                        | 33 |
| 2.6. Specific bacterial complexes.....   | 34 |
| CHAPTER 3. PERIODONTAL PATHOGENIC BACTERIA.....  | 39 |
| 3.1. Criteria for defining periodontal pathogens.....  | 39 |
| 3.2. Considerations on periodontal pathogens .....   | 40 |
| 3.2.1. <i>General aspects</i> .....  | 40 |
| 3.2.2. <i>Aggregatibacter (Actinobacillus) actinomycetemcomitans</i> .....                               | 41 |
| 3.2.3. <i>Porphyromonas gingivalis</i> .....   | 45 |
| 3.2.4. <i>Tannerella forsythia</i> .....   | 48 |
| 3.2.5. <i>Role of herpesviruses (HV) in periodontal disease</i> .....                                    | 48 |
| CHAPTER 4. PATHOGENESIS OF PERIODONTAL DISEASES .....  | 54 |
| 4.1. Generalities.....   | 54 |
| 4.2. Innate immunity in healthy and affected periodontal tissues .....                                   | 54 |
| 4.3. Interaction between periodontal polymorphonuclear leukocytes and subgingival biofilm .....          | 57 |
| 4.4. Resolution of inflammation phase .....  | 59 |
| 4.5. Mechanisms of periodontal destruction.....  | 59 |
| 4.5.1. <i>Overview</i> .....   | 59 |
| 4.5.2. <i>Periodontal destruction mediated by PMNn</i> .....   | 60 |
| 4.5.3. <i>Periodontal destruction induced by the proinflammatory mediators. Types of mediators</i> ..... | 62 |
| 4.6. Histopathologic staging of periodontal lesions .....  | 65 |

|  |     |
|--|-----|
| 4.7. The role of RANKL-RANK-OPG axis in alveolar bone destruction .....                                | 67  |
| 4.8. Conditions needed to be reunited for producing attachment loss .....                              | 68  |
| CHAPTER 5. THE PERIODONTAL EXAMINATION. THE EXAMINATION OF<br>THE GINGIVA AND LOCAL RISK FACTORS ..... | 74  |
| 5.1. Medical history of the patient .....  | 74  |
| 5.2. Reason for presentation .....   | 75  |
| 5.3. Gingiva. Theoretical aspects .....  | 75  |
| 5.3.1. <i>Gingival Mucosa. Topographic entities</i> .....  | 75  |
| 5.3.2. <i>Gingival mucosa. Height</i> .....  | 77  |
| 5.3.3. <i>Gingival mucosa. Thickness</i> .....   | 77  |
| 5.3.4. <i>The importance of the attached gingiva in maintaining the periodontal health</i> .....       | 79  |
| 5.3.5. <i>Gingival mucosa. Normal macroscopic features</i> .....                                       | 80  |
| 5.3.6. <i>Macroscopic aspect of inflamed gingiva</i> .....   | 80  |
| 5.4. Clinical examination of the gingival mucosa .....   | 82  |
| 5.4.1. <i>Evaluation of the gingival status (normal or inflamed)</i> .....                             | 82  |
| 5.4.2. <i>Measurement of gingival vertical dimension (gingival height)</i> .....                       | 83  |
| 5.4.3. <i>Measurement of the gingival thickness</i> .....  | 84  |
| 5.5. Frenum .....  | 85  |
| 5.6. Evaluation of oral hygiene .....  | 85  |
| 5.7. Evaluation of local risk factors .....  | 85  |
| 5.7.1. <i>Theoretical aspects related to local risk factors</i> .....                                  | 85  |
| 5.7.2. <i>Practical issues to assess local risk factors</i> .....                                      | 88  |
| CHAPTER 6. PERIODONTAL CLINICAL EXAMINATION. CLINICAL SIGNS OF<br>ATTACHMENT LOSS .....                | 91  |
| 6.1. Periodontal pocket. Attachment level. Theoretical aspects .....                                   | 91  |
| 6.2. Periodontal pocket. Attachment level. Practical aspects .....                                     | 93  |
| 6.3. Vertical bone or infrabony defects. Theoretical aspects .....                                     | 93  |
| 6.4. Vertical bone or infrabony defects. Practical aspects .....                                       | 95  |
| 6.5. Gingival recession .....  | 95  |
| 6.5.1. <i>Gingival recession. Theoretical aspects</i> .....  | 95  |
| 6.5.2. <i>Gingival recession. Practical aspects</i> .....  | 96  |
| 6.6. Furcation involvement .....   | 96  |
| 6.6.1. <i>Furcation involvement. Theoretical aspects</i> .....   | 96  |
| 6.6.2. <i>Furcation involvement. Practical aspects</i> .....   | 97  |
| 6.7. Increased tooth mobility .....  | 98  |
| 6.7.1. <i>Tooth mobility. Theoretical aspects</i> .....  | 98  |
| 6.7.2. <i>Tooth mobility. Practical aspects</i> .....  | 98  |
| 6.8. Pathological tooth migration .....  | 99  |
| 6.8.1. <i>Pathological tooth migration. Theoretical aspects</i> .....                                  | 99  |
| 6.8.2. <i>Pathological tooth migration. Practical aspects</i> .....                                    | 101 |
| 6.9. Dentine hypersensitivity .....  | 101 |
| 6.10. Presence of black triangles .....  | 102 |
| 6.10.1. <i>Presence of black triangles. Theoretical aspects</i> .....                                  | 102 |
| 6.10.2. <i>Presence of black triangles. Practical aspects</i> .....                                    | 102 |
| CHAPTER 7. RADIOGRAPHIC EXAMINATION IN PERIODONTOLOGY .....  | 106 |
| 7.1. Data provided by the radiographic examination .....   | 106 |

|  |     |
|--|-----|
| 7.2. Normal anatomical characteristics of the alveolar bone.....   | 107 |
| 7.3. Specific radiological aspects for periodontal destruction.....  | 108 |
| 7.4. The radiological aspect of different severity involvements (stages) of periodontitis.....                                   | 110 |
| 7.5. Limitations of the radiographic examination.....  | 111 |
| 7.6. Practical aspects of the radiographic examination.....  | 112 |
| CHAPTER 8. MICROBIOLOGICAL DIAGNOSTIC TESTS IN PERIODONTOLOGY...   | 113 |
| 8.1. Indications of microbiological tests in periodontology.....   | 113 |
| 8.2. Microbiological sampling methods. Sampling protocol.....  | 114 |
| 8.3. Conventional methods of bacterial identification based on the culture approach.....   | 115 |
| 8.4. Identification of bacterial metabolic end-products.....   | 117 |
| 8.5. Molecular methods for bacteria identification.....  | 118 |
| 8.5.1. <i>General data</i> .....   | 118 |
| 8.5.2. <i>Nucleic acid tests</i> .....   | 118 |
| 8.5.3. <i>Nucleic acid amplification methods</i> .....   | 119 |
| 8.5.4. <i>Types of microbiological tests used for the genetic identification of periodontopathogen bacteria</i> .....            | 122 |
| CHAPTER 9. CLASSIFICATION OF PERIODONTAL CONDITIONS AND DISEASES. GINGIVO- PERIODONTAL HEALTH CONDITIONS. GINGIVAL DISEASES..... | 126 |
| 9.1. General data on the classification of periodontal diseases from 2018.....   | 126 |
| 9.2. Periodontal health versus gingival health.....  | 128 |
| 9.3. Histological aspects associated with gingival/ periodontal health conditions.....   | 129 |
| 9.4. Gingival health classification in clinical practice.....  | 130 |
| 9.5. The perspective on gingival/ periodontal health from a therapeutical point of view.....                                     | 133 |
| 9.6. Classification of gingival disease.....   | 134 |
| 9.7. Classification of plaque-induced gingivitis according to the condition of the deep periodontal tissues.....                 | 135 |
| 9.8. Bleeding on probing (BoP) –evidence-based clinical significance.....  | 136 |
| 9.9. Plaque- induced gingivitis on an intact periodontium - characterization.....  | 138 |
| 9.10. Pregnancy gingivitis.....  | 140 |
| 9.11. Drug-induced gingival enlargement.....   | 141 |
| 9.11.1. <i>Gingival enlargement associated with cyclosporine</i> .....   | 143 |
| 9.11.2. <i>Management of drug-induced gingival enlargement</i> .....   | 144 |
| 9.12. Non-dental plaque-induced gingival diseases.....   | 146 |
| 9.12.1. <i>Genetic/developmental disorders</i> .....   | 146 |
| 9.12.2. <i>Specific infections</i> .....   | 148 |
| 9.12.3. <i>Inflammatory and immune conditions</i> .....  | 150 |
| 9.12.4. <i>Reactive processes</i> .....  | 154 |
| 9.12.5. <i>Neoplastic lesions</i> .....  | 155 |
| 9.12.6. <i>Other gingival lesions</i> .....  | 156 |
| CHAPTER 10. CLASSIFICATION OF PERIODONTAL CONDITIONS AND DISEASES. PERIODONTITIS.....  | 167 |
| 10.1. Definition of periodontitis. Prevalence data.....  | 167 |
| 10.2. Characteristics of periodontitis (clinical picture).....   | 169 |
| 10.3. Periodontal Probing Depth-PD. Its role in the evaluation of the periodontal status...                                      | 170 |
| 10.4. Symptoms in periodontitis patients.....  | 171 |
| 10.5. Classification of periodontitis 1999.....  | 171 |

|  |     |
|--|-----|
| 10.6. The 2018 classification of periodontitis - EFP-AAP 2018.....                                   | 172 |
| 10.7. Diagnostic formulation of periodontitis. Clinical algorithm.....                               | 173 |
| 10.8. Staging of periodontitis.....  | 178 |
| 10.9. Grading of periodontitis.....  | 181 |
| 10.10. Positive diagnosis of periodontitis or case definition.....                                   | 183 |
| 10.11. Molar-incisor periodontal destructive pattern or molar-incisor periodontitis.....             | 184 |
| 10.11.1. <i>General aspects</i> .....  | 184 |
| 10.11.2. <i>Characteristics and positive diagnosis</i> .....   | 184 |
| 10.12. Progression of periodontitis.....   | 185 |
| CHAPTER 11. PERIODONTAL DISEASE AS MANIFESTATIONS OF SYSTEMIC DISEASES.....                          | 189 |
| I. SYSTEMIC DISORDERS THAT HAVE A MAJOR IMPACT ON THE PERIODONTAL INFLAMMATION.....                  | 189 |
| 11.1. Genetic disorders.....   | 189 |
| 11.1.1. <i>Diseases associated with immunologic disorders</i> .....                                  | 189 |
| 11.1.2. <i>Diseases affecting the oral mucosa and gingival tissue</i> .....                          | 191 |
| 11.1.3. <i>Diseases affecting the connective tissues</i> .....                                       | 191 |
| 11.1.4. <i>Metabolic and endocrine disorders</i> .....   | 192 |
| 11.2. Acquired immunodeficiency diseases.....  | 192 |
| 11.3. Inflammatory diseases.....   | 193 |
| II. OTHER SYSTEMIC DISORDERS THAT MAY CONTRIBUTE TO PERIODONTAL DESTRUCTION.....                     | 193 |
| III. SYSTEMIC DISORDERS THAT MAY CAUSE LOSS OF PERIODONTAL TISSUES INDEPENDENT OF PERIODONTITIS..... | 193 |
| 11.4. Periodontal impact of HIV infection.....   | 194 |
| 11.4.1. <i>General prevalence and treatment data</i> .....   | 194 |
| 11.4.2. <i>Periodontal manifestations in HIV infection</i> .....                                     | 195 |
| CHAPTER 12. ACUTE PERIODONTAL CONDITIONS OR PERIODONTAL EMERGENCIES.....                             | 202 |
| 12.1. Classification of periodontal emergencies/ acute periodontal conditions.....                   | 202 |
| 12.2. Necrotizing periodontal diseases.....  | 202 |
| 12.3. Necrotizing gingivitis.....  | 203 |
| 12.3.1. <i>NG prevalence</i> .....   | 203 |
| 12.3.2. <i>The pathogenic microbial flora in NG</i> .....  | 204 |
| 12.3.3. <i>Predisposing risk factors of NG</i> .....   | 204 |
| 12.3.4. <i>Positive and differential diagnosis of NG</i> .....                                       | 205 |
| 12.3.5. <i>Evolution of NG</i> .....   | 205 |
| 12.3.6. <i>Treatment of NG in HIV seronegative patients</i> .....                                    | 206 |
| 12.4. The periodontal abscess.....   | 208 |
| 12.4.1. <i>Periodontal abscess definition and prevalence</i> .....                                   | 208 |
| 12.4.2. <i>Classification of periodontal abscess</i> .....   | 209 |
| 12.4.3. <i>Pathophysiology of periodontal abscess</i> .....  | 209 |
| 12.4.4. <i>Periodontal abscess - signs and symptoms</i> .....  | 209 |
| 12.4.5. <i>Periodontal abscess - diagnosis</i> .....   | 210 |
| 12.4.6. <i>Treatment of periodontal abscess</i> .....  | 211 |
| 12.5. Herpetic gingivostomatitis.....  | 211 |

|   |     |
|---|-----|
| CHAPTER 13. GENERAL RISK FACTORS OF PERIODONTITIS: GENETIC FACTORS, SMOKING, STRESS, AND DIET .....         | 215 |
| 13.1. Genetic risk factors .....  | 215 |
| 13.1.1. <i>Evidence supporting the influence of the genetic risk factors in periodontal disease</i> .....   | 215 |
| 13.1.2. <i>Genetic polymorphism</i> .....   | 217 |
| 13.1.3. <i>Major histocompatibility complex</i> .....   | 219 |
| 13.1.4. <i>Genetic susceptibility tests</i> .....   | 219 |
| 13.2. Smoking as a general risk factor in periodontitis .....   | 220 |
| 13.2.1. <i>Periodontal disease in smokers</i> .....   | 220 |
| 13.2.2. <i>Rapidly progressive periodontitis and smoking</i> .....  | 221 |
| 13.2.3. <i>Impact of smoking on periodontal tissues</i> .....   | 222 |
| 13.3. Stress as a general risk factor for periodontal disease .....   | 223 |
| 13.3.1. <i>Correlation between stress and periodontitis</i> .....   | 223 |
| 13.3.2. <i>Pathogenic mechanisms of stress influence on periodontitis</i> .....                             | 223 |
| 13.4. Diet and periodontitis .....  | 224 |
| CHAPTER 14. SYSTEMIC RISK FACTORS OF PERIODONTITIS: DIABETES MELLITUS.....                                  | 230 |
| 14.1. Subclinical systemic inflammation .....   | 230 |
| 14.2. Diabetes. General aspects.....  | 232 |
| 14.3. The biological plausibility of the correlation between diabetes and periodontitis .....               | 234 |
| 14.4. Epidemiological correlations between diabetes and periodontitis.....                                  | 235 |
| 14.5. Periodontal treatment of diabetic patients .....  | 236 |
| 14.5.1. <i>Risk assessment of hypoglycaemia in the dental office</i> .....                                  | 236 |
| 14.5.2. <i>Treatment phases of the diabetic patient diagnosed with periodontitis</i> .....                  | 237 |
| 14.5.3. <i>The need for antibiotherapy in diabetic patients</i> .....                                       | 239 |
| 14.6. Other oral conditions in diabetic patients .....  | 240 |
| CHAPTER 15. RELATIONSHIPS OF PERIODONTITIS WITH CARDIOVASCULAR DISEASES AND OBESITY .....                   | 244 |
| 15.1. Focal infection concept.....  | 244 |
| 15.2. Atherosclerosis .....   | 245 |
| 15.3. The biological plausibility of the correlation between periodontitis and cardiovascular disease ..... | 246 |
| 15.4. Epidemiological correlations of periodontitis - cardiovascular disease.....                           | 247 |
| 15.5. Interventional correlations between periodontitis and cardiovascular disease .....                    | 248 |
| 15.6. Correlation of periodontitis with stroke .....  | 248 |
| 15.7. Considerations on current evidence provided by the literature .....                                   | 249 |
| 15.8. Recommendations for clinical practice.....  | 250 |
| 15.9. Obesity, possible risk factor for periodontitis.....  | 250 |
| CHAPTER 16. ASSOCIATION OF PERIODONTITIS WITH SOME PREGNANCY COMPLICATIONS.....                             | 255 |
| 16.1. Biological plausibility of periodontitis influence on pregnancy outcomes.....                         | 255 |
| 16.2. Epidemiological correlations between periodontitis and pregnancy complications .....                  | 257 |
| 16.3. Influence of maternal periodontitis treatment on gestational complications.....                       | 257 |
| 16.4. Periodontal treatment in pregnancy.....   | 258 |

|  |     |
|--|-----|
| CHAPTER 17. HOST-MODULATION THERAPY .....                                | 262 |
| 17.1. General aspects.....   | 262 |
| 17.2. Biofilm modifiers. Probiotics.....                                 | 263 |
| 17.3. Host response modifiers .....                                      | 265 |
| 17.3.1. <i>Nonsteroidal anti-inflammatory drugs</i> .....                | 265 |
| 17.3.2. <i>Anti-cytokine drugs</i> .....                                 | 266 |
| 17.3.3. <i>Metalloproteinsase inhibitors</i> .....                       | 266 |
| 17.3.4. <i>Inflammatory resolution molecules</i> .....                   | 267 |
| CHAPTER 18. FURCATION LESIONS: CLINIC AND TREATMENT.....                 | 272 |
| 18.1. Furcation anatomy- clinically relevant aspects .....               | 272 |
| 18.2. Diagnosis and prognosis of furcation involvement .....             | 273 |
| 18.3. Treatment protocols for furcation involvement .....                | 274 |
| 18.4. Therapeutical algorithms for furcation involvement treatment ..... | 276 |
