TABLE OF CONTENTS

DICTIONARY/ABBREVIATIONS	5
NERVOUS SYSTEM – GENERALITIES	
Definition, divisions, structure	8
Neuron	8
Neuroglia (Glial Cells)	11
Synapse	13
Reflex	17
Nervous pathway – general scheme	19
Concepts of pathology	21
NERVOUS SYSTEM DEVELOPMENT	
Neurulation	24
Brain vesicles	25
Spinal cord development	28
Brainstem and cerebellum development	29
Diencephalon development	31
Cerebral hemispheres development	32
Concepts of pathology	35
CEREBRO-SPINAL MENINGES	
Structure	40
Cerebro-spinal Fluid ..	45
Meningeal lymphatics	46
Glymphatic system	46
Concepts of pathology	47
SPINAL CORD	
Generalities, relations, external configuration	50
Spinal cord segmentation	52
Spinal cord vascularization	53
Spinal nerves	54
Medullary reflexes	56
Spinal cord structure.....	58
Concepts of pathology	72
BRAINSTEM	
Localization, relations, external configuration.....	74
Brainstem vascularization	79
Brainstem structure	82
Cranial nerve nuclei	85
Brainstem nuclei	95
Brainstem fasciculi	103
Brainstem – seriate transverse section	108
Concepts of pathology.....	112
CEREBELLUM	
Generalities, relations, external configuration	116
